We have gaiet news from France. The King has dismissed the Chamber of Deputies & stopped the press - no publication to appear of more than 20 leaves without the authors name or by permission of Ministers The printers have met, all is in confusion I have read his mandate - Further News reported by the Hibernia from Liverpool as Telegraphic that Lafayette at the head of the National guard overcame & killed 6000. of the royal guard This is highly improbable but owing to the election of the Ultras or Republican party I think there is some brewing among the French which to say where it will stop is impossible In Paris the head quarters of Royalty the Republicans gained the election by a handsome majority - The arrival of John Randolph in Portsmouth Eng is announced Rumour states the Duke of Wellington is not pleased with Algiers & French affairs — All journals & writings (& the types & presses with which they were printed) in opposition to the French Govern^t are to be seized, so says the King. The nation & the government are now completely opposed - Gwyn will give you particulars — Give my love to H & the family till H I will write her again by Baltimore

I will send by Baltimore the Lea &c I would send you a paper but I presume Gwyns paper will arrive with this
