C. Bernie Esq.

Dear Sir

I wrote you on the spring of 29 since
have not had the pleasure of hearing from you, nor is my situation
in life improved. I trust this will find you & family in good health
& happiness — I can say on this you hear of the death of
friend Mr. Wm. Nesbin. Indeed there has been many deaths
this season as I never remember so wet & cold season, the weather
has become moderate of late these last few days wh. will
save the harvest as it is very late not yet got in, the
potatoe crop is deficient owing to the rains & cold
wheat is also defct. Oats is a fair crop & most abundant
we have, print very scarce. —

There is a great revolution broke
out in the Netherlands has had fighting wh. the Dutch
Troops at Brussels where the Belgians has thrown off
the Dutch authority, & will have a Government of their own
this has cost much bloodshed & has affected both Austria
& Prussia also Russia. France has set the Great example
wh. must have reached you before this. Spain is also
breaking out, Portugal must follow, where it will
end you know. but the spirit of freedom is become universal

My dear Father

Yours of the 7th ult by McCall has duly been
rec.d & the proceeds onward this morning. In relation
to the decree there is filed in the papers in Frederick an
assignment to old Mr Gist & it (the decree) is on the docket
entered to his use which entitles him to it. the word
"Order" is not necessary & is only properly used in promissory
notes (which have no seal to them) Bills of exchange &c
but sealed instruments or judg.ts or decrees are only
assignable — Although the words Heirs Exors &c
are not in either case, nevertheless the Exors in the
first instance are entitled, to enable them to settle
up the estate but after they have so done there
is a division of remaining personal funds among
the heirs & the law makes the transfer as a matter
of course so that without the words order, heirs Exors
&c they are ~~strictly~~ strictly entitled as I think you will
find on the Chancery docket in Frederick
I heard of the death of our friend Wm Thomson &
only regret it on acct of his family, as I have every
reason to believe he was prepared — He, has been
here about 2 weeks I got her away from Frederick
as soon as possible after her going there She is as
well (to use the common phrase in similar cases)
as can be expected & I hope will ~~soon~~ enable you
