Middleburg Dec. 25. 1830

Mr. Davidson

Sir. please to allow me an answer so soon as possible to the following — I wish you to speak to Mr. Birney and see if he would hire the Negro girl you mentions — I would take her for 12 Months at what would be a fair Price — I intend Moving to the City of Baltimore next week. Was I to get her would take her to Baltimore with me. if he will not hire her on no Conditions I would purchase her — if I could see her at a fair price — I should not be able to give him the Money now on account of my going to business in the City — a dry good business which takes away Money — but would pay him in 12 Months. if he will let her go at a fair price on these Conditions — let me know Immediately and I will go and see Mr. Birnie as I wish to move to Baltimore next week. he probably does not know me. you can tell him — and also that I now live — Your attention to this will be remembered by

Yours Respectfully

William R. Hunt

Accomac

Dear Sir

Accomac 2 Oct 28th 1830

Enclosed you will find twenty dollars which I understand to be my proportion for seed wheat got by Mr Gorrick. I have waited a longtime in hopes his proportion also could accompany mine, but do not wish it to be open against me any longer.

I have no doubt he will pay you before he leaves the, he has got out some wheat for himself which he has sent to mill but when he will take it to market I know not. The ~~roads~~ the roads have been so bad that I did not visit you as I really to my intention & wishes Mrs Van Bibber and I have each a touch of rheumatics we unite in the compliments of the season to Mr Birnie yourself and family

Respectfully
Your Obt Servt

I would have written by Babylon to my dear Father but thought he had changed his days having been irregular lately — I saw Jackson twice since he came first time I thought there was nothing serious in her case but to day I saw him & a very evident improvement has taken place — I found the sore much diminished in size & 3 ipecs with a healthy discharge & considered him materially better, in which opinion Hasleum supported me when I afterwards saw him — He says when the waggon comes down if he improves as he has done he wishes you to let him stay from his improvement according to my idea it would be right, he has an issue on the near side the contents of which form a running of clear white matter to her knee, the sore is diminished the swelling subsiding & altogether a very favorable change in appearance, he tells me the sore is shedding or throwing off the old diseased substance — I called on Phillips to get from him the price of 13 bbls prime at $8 which he sold but I find beef is sold on a credit of 6 months
