Harrisburg January 10. 1834

Sir

We have ascertained fully that the negro Bob passed through this place. The negroes here say that in your coming to my office the first time, Bob passed you near enough to touch you with his hand. he stood in town that night & left it before day in the morning passed up & crossed the River and was seen fifteen miles from here. he has directed his course to Lewistown on the River Juniatta about 30 miles from here —

I am Respectfully
