Dear Sir Expecting yr wagon yesterday I hastily drew up the enclosed, I have not time to copy it or correct it. As I contemplate going to Baltimore next Wednesday & the time to take something of the kind to exhibit to the bearlers in Baltimore will thank you to withdraw yr attention for a short time from other matters and give this subject the deliberation it deserves. I will endeavour to be at yr house on Monday, when I hope my friend Rogers will have the State meet made out in due form agreeably to yr confined ideas, without unless you choose any reference to mine which are most candidly expressed in the enclosed. A fat milk cow may be cheap, but I am not able to buy at any such price. With regard to the other subject contained in yr letter, I have only to say, that whenever I can, I am willing to assist my friends, in any way whatever. My income with the family I have is indeed very limited. I have endeavoured whenever I had a chance to loan money on quarterly payments of the interest or rent. Our wants are many and we have never been much accustomed to economy.

excuse haste.

Yrs truly
Jas Bernie
