Sumbrooke Md. 15th Nov. 1836.

C. Perrine Esqr.

Sir, Your favor of the 11th was recd. yesterday - In reply I would observe, that I understood from Mrs Nail that you said you wanted me 2 or 3 days - judging that you had made some sales and it being entirely out of my power to be from home that long, I was compelled to defer it - Had I remained under my original impression about it - that I could go and come in a day I should have been up last week. To the end that there may be no mistake now I would name the first fair day in the next week.

The wetness & lateness of the season - and the nature of what I have to do on the farm & about the mills this fall places me under the necessity of coming short of the wishes of my friend

Respy Yours

C. W. Nail
