My Dear Sir, Baltimore April 4. 1836

Your favor of the 29th March reached me this day and I immediately wrote to the gentleman who I expect will purchase them. It will take 10 days for the letter to reached him and allowing as many for the return and for or five for him to consider will bring his answer I think by the last of this month. I feel certain he will take them both and could wish you to reserve them for him. As soon as I see Mr Sinclair I will submit your proposition to him. The owner of the Barney Cow does not want to part with her.

Yrs Truly
