Dear Sir

I Read Yours of the 21st this moment - and find that Mr Shelty could not take the tobacco in a Bbl but would take a bag, and I will try and find the place he stops at and put it in his wagon - The Reason it was not sent Last week was that I was under the impression that he did come to our house untill Friday and thus missed him, I am sorry to say the person I spoken I was speaking has got a situation. However if I should meet with any person that would suit. I will advise you Please say to Miss Ann that Mr Sinclair disappointed me in the Mulberry trees. But will send them next week. I send Miss Hester some Rush wheat Rut. I must close as my man has to find Mr Shelty to night. Love to all

Yours in haste

My dear father

Rec'd Mothers letter this evening together with a bundle of shirts - I am glad to see she so willing if for the benefit of my family I should go westward I expect to close here in say 3 or 4 weeks but it will take me perhaps a month longer to settle up my business - Whether when all is settled I shall have much money or any is a matter of doubt - as I shall have some few good cases behind; however it will not do to delay inasmuch as I cannot stay here see no other chance - The course I shall pursue remains doubtful whether to Mobile & up through the Southern County or to Pittsburg down the Ohio to Louisville then through Ohio Indiana on to the lakes & cross over to St Louis, all this will depend on circumstances
