Weightville Jan 9th 1837

C. Bonnie Esq

Dear Sir — I have received yours of 27th ult by last mail wishing to know about plants for a water cistern. I would inform you that I have quit the Lumber business this spring and have rented the yard to a Mr Jacob Baker who has got a good stock of Lumber on hand, about the kind of plants that would suit you would say if it is to be made a square box that 2 Corn plants will answer if made stand fashion then white pine knots is the best and cheapest they are 12 ft long and about 6 inches wide will come at ten cents a piece and will cut two long the Mr Baker has the kind. and should you send over to him you will find him to be an honest man (which is saying a good deal)

With Respect

William White

Mr. C Bonnie

| 1 Cart Saddle | | 2.00 |
| | | 66.09 |

Dear Sir

We cannot forward any half Barrels Shad but have Shad in Barrels at $8.50 for No. 1 — the G. A. Salt is at the Point and it would occasion a detention of a Team to the Wagon to send for it — it shall be ready by the next conveyance — we will have the acct balanced as soon as our Mr Fretwell from the country —

Respectfully Yours
Alex. Falls & Son Hall
