Cumberland July. 4th 1838

Dear Sir,

On the very eve of taking a journey into the country some distance I rec'd your last letter. Since my return I have a good deal indisposed which I hope will apologize for my inattention. As I wrote you before I feel it necessary to procure a copy of your report as Trustee in the case of Reed's estate. The report is long and I do not like to go to the expense of a copy, and have been in great hope of seeing you personally or of procuring an examination by some person to take extracts. I have this evening sent for a copy by mail which I shall as soon as rec'd. will enable me to send you a statement

Respectfully
Yr
