Patto 17th May 1838

Mr Birney
Dear Sir

Col Combs of St Marys Co Maryland, wishes to get a full blooded Durham heifer calf and would pay a liberal price for it — If you have one of that blood, let me know by mail or otherways, also the price deliverable here

If you have none full blood, how near can you come to it, & the price

If that fine cow that you asked me $100 for, has had a heifer calf. I think you said the calf would be 7/8 and that would do very well

Please let me hear from you with as little delay as possible

Yrs respectfully
H B Kyle

P.S. The calf should be raised by hand, otherwise it may die when taken from the cow.

Baltimore 7th May 1838

Colonel Thos Birney Senr Esq
Surrey Store
Maryland

Dr Sir

June 18th 1838

I understand - you have a Durham Bull you would give on the shares - I would take him and give one half that he would make and would pay one half of the expense of bringing him up — In case he should die or any accident happen I would not like to be accountable

Yours
James Evans

Mr C. Birney
