Dr. Sir.

I have received an offer of 47 cts pr lb Cash for your wool. I have declined taking that price for it, without hearing from you on the subject.

As the market now is, I should advise you to sell. There is but little if any prospect of any advance in prices of wool within this year, as the stock in this country is large, being now nearly the amt of two entire clips in the hands of growers and dealers. I shall wait your answer.

Yours very respectfully
