The meetings are continued and the interest was increasing in Mr Delpenstein on Tuesday when I was in Chambersby

There are new things for Chambersburg —

As for business I am doing as well as could be expected I have wheat but no stock a head — prices are high the profits have been fair —

I sent an order on E. Shaw & Co of Baltimore for Forty Dollars for the Missionary Board —

My object in visiting your neighbourhood is to try to get a head Mellen Th Owing has an offer of more than I can afford to give him it is over 300$ a year besides Board & Washing —

I would be glad if Rogers & yourself would make some enquiry about one for me — I have a House for a man of Family but would not care whether Singel or married —

We are all well except my self I have a bad cold with my foot —

Affectionately Yrs
John Darby
