draft on Hottinger & Co immediately taken up for the honour of the Bk will work well for her credit & shows she is as strong ~~at home~~ abroad as at home

The suspension has relieved us a little but there is nothing radical. I think exchange must change side this winter, specie will then stay at home & I hope spring will see us all right again

As relates to politics I do wish the whigs would surrender & their common sense & self interest would save the country. If the sub treasury plan be erroneous conservatism would defeat it but as long as we continue to probe the admin they will get up opposition action. Love to all — Huger C.W. did not come down with his we looked for him as I had, unknowingly wrote Roger on that subject

Yours truly
C Biddle
