persons to Represent the Country to offer our Reasons
for Enacting the Laws past this Session — by —

By the Co-mons assembled Mr. 4th 1710 —

We should be much wanting to our Country if
We did not send more ~~to~~ recommend to you the
absolute Necessity of having some Capable and fitt
persons in London to represent our unhappy Circumstances —
& attend the Lords of the Council of Trade and
Plantations ~~in~~ to offer our reasons to support the
Laws We have Enacted this Session, For We are
morally assured the contents of ~~some of them~~
will meet great Opposition, Wherefore We think
it advisable imediately to address their Lordships to
offer our Reasons & the Necessity of the Laws now
for remedying the Aggrievances represented ~~lately~~
~~before~~, least the many Opponents it is like to meet
with should forestall us by prepossessing their Lordships
with colourable pretences of irregularity or —
injustice And therefore heartily wishes You would
not omitt to do what is absolutely necessary ~~a thing~~ for ye Service
of ye Country — Which of you should We know not
Whome to write to that can or will be any ways
serviceable to us — Signed &c &c
