No. 16

By the House of Deb. 4 9br 1710

The House have consid. Your Message this Morn. relating to having an Agent or Attorney here but since your Act has past this Session whereby it can be presumed to be judicially to Trade — we can think Ye Mr. will make any interest against their being allowed to — and as for any Plea in this country doing it Illegally to Act for vindicating Aggrevians since Your Hon. don't think fit to let that Bill pass but for so short a time as two years we presume it will expire before we can have notice of it's disallowance and then our money will be thrown away to no purpose — for rest remain w. Your respects to employ an Agent
