persons to Represent the Country to offer our Reasons for Enacting the Laws past this Session — by —

By the Co[uncil] in assembly Md. 4th 1710 —

We should be much wanting to our Country if We did not send more ~~to~~ recommend to you the absolute Necessity of having some Capable and fitt persons in London to represent our unhappy Circumstances & attend the Lords of the Council of Trade and Plantations ~~in~~ to offer our reasons to support the Laws We have Enacted this Session, For We are morally assured the committed that ~~some of them~~ will meet great Opposition, Wherefore We think it advisable imediately to address their Lordsp[s] to offer our Reasons & the Necessity of the Laws now for remedying the Aggrievances represented ~~lately~~ ~~before~~, least the many Opponents it is like to meet with should forestall us by prepossessing their Lordsp[s] with colourable pretences of irregularity or injustice And therefore heartily wish you would not omitt to do what is absolutely necessary ~~a thing~~ for the Service of y[e] Country — Which of you should We know not whome to write to that can or will be any way serviceable to us —
