5 July 1755

In answer to your Message with the return of the Bill for securing the Western Frontiers, we must offerme to you that such a return after a Negative passed by this House, is irregular, & we should have been very ready to have explained our Selves particularly as to the objections we thought the Bill justly liable to, if you had desired us so to do, in the usual Method of proceedings between the two Houses. And we assure you that we are so sensible of the dangers to which our fellow subjects on the Western Frontiers are exposed, that we shall be glad to agree with you on a Bill for their Security & hope you will find a proper expedient for that purpose.
