Gentlemen

London 10 March 1757

Our last was the 12th May 1753 & Since then we have not had any from you.

This comes to bring the acct Current for the Paper Currency of the Province of Maryland, & this time the ballance thereof you will find to be £3299:1:4 on the Credit Side; And also Mr Hunts acct Curr for payment of small Sums, & the ballance due from him is £60:15:3, You will please to take notice, we have not any bills in our hands that are unpaid.

The above mentioned Sum of £3299:1:4 is the ballance of the Cash rec^d in the Bank Books in our joynt Names, And next month half a year dividend to the 5th will be paid on the £19500:— Capitall Stock.

You may wonder, as the Sum lying dead, that we have not Inverted it or some part thereof, as we have from time to time heretofore done; But as the Times lately & still are so Precarious, we thought it better to defer it, as we have done, notwithstanding the loss of the Interest, the price of the Stock is at prsent, & doubt will shortly be lower. We shall act to the best of our judgements for the Countrys Interest, at all times. And are Gentlemen

Your very humble Serv^ts

Wm Hunt

J Hanbury

To the Commissioners for the Paper Currency of Maryland.
