[illegible] Canada, touching the conduct of some of the Governours and
[illegible]ers under him, who have been guilty of Infractions of the
Treat[illegible]ies of Peace Subsisting between Great Britain and France, and
part[illegible]ularly of the 15th Article of the Treaty of Utrecht, especially if
it [illegible] done with such a Concurrence upon good proofs, which I
hop[illegible] all who know of any [illegible] will come furnished with or with
the [illegible] means of procuring them.

Some other Governments I send this Letter to, may possibly
think [illegible] they have no concern with Indian Affairs, because other
Provin[illegible]ces lay between them and the Indians. But if Our Indians
should [illegible] be gained by the French, they may soon be induced to harrass
the [illegible] lying between such other Governments and the Indians,
[illegible] them, as lately happened to
[illegible] this Province In this case
[illegible] had occasion [illegible] to find, when too late, that they had an Interest
in Indian Affairs, to which if they had duly attended, these dreadfull
Consequences might forever have been prevented.— And as the very
News of such an Union of Councils, must on the one hand greatly
Encourage the Indians to be steady to the British Interest, so on the
other [illegible] may tend to discourage the French from continuing their
[illegible] to draw over our Indians from us.

I am with great regard

Sir

Your Honours Obedient

humble Serv[illegible]
