Centralization of Schools.

A bill has been recently introduced in the Legislature of Pennsylvania "to provide for the centralization of township schools and to provide a high school for the township."

Section 1 says:—"Be it enacted, &c., that for the purpose of this act the word 'centralization' is hereby defined as a system of schools in a township providing for the abolishment of all sub-districts and the conveyance of pupils to one or more central schools."

The bill further provides that each township shall have the privelege of voting whether they shall have such a system or not.

To those who have given the subject any thought centralization seems to be the only hope of higher and better education in the country.

For some time the writer has been an advocote of just such a system, and perhaps his experience of four years within the borders of Carroll county along the lines of higher education are sufficient excuse for this letter to the county paper.

This system is in successful operation in both Ohio and Illinois and hence cannot be said to be a scheme of politicians. A very nice report of the workings of the centralization system, containing over 20 pages, has been issued by Supt. O. J. Kearn, of Rockford, Ill. This bulletin also contains references to the workings of the system in Ohio.

A great many things can be said in favor of the system and but few reasonable arguments against it.

The first consideration is expense. In Northeastern Ohio, known as the Western Reserve, there is a great number of these schools. It was in this section that the writer came in contact with the system several years ago.

At Gustavus, a cross-roads six miles from the nearest R. R., with store and postoffice, there is located one of these High schools. Before the system was inaugurated the average daily attendance for the district was but 126, while after the centralization it increased to 144. Before the centralization the cost for the entire township was $2900 while after the centralization the cost was $3156, an increase of but $256, or at an increase of less than 9 per cent in expense while the increase in attendance was nearly 15 per cent.

Now it must be remembered that this cost not only represents the teachers' salaries but also the hire of team and driver to convey the children both to and from school.

The driver must furnish a comfortable wagon, with blankets and heated soap-stones in cold weather, and waterproof for wet weather; hence the children neither suffer with the cold or wet feet incident to trudging to the country school. Therefore, from a physical standpoint, the "centralization" idea is preferable.

Furthermore the driver is an officer of the schoolboard and has charge of the children from the time they leave home until they get to the school, and again from the time they leave school until they get home; hence there is no danger of obscene or profane language or fear that the "bully" will "pick on" the timid, or scare them into fits which bring on mental derangement. Therefore from a moral standpoint centralization is to be desired.

With a single school of several rooms better teachers can be procured because fewer are needed and especialists can be selected for each line of work, hence it needs no labored argument to prove that mentally it is to the best interests of the pupils and community.

Since then financially it costs no more, and since it betters the condition of the pupils physically, mentally and morally, centralization is desirable not only for rural districts in Ohio and Illinois, but for such districts in all States where education is appreciated. Later we may have more to say.

Gunning for Rain.

Cleaveland Moffett reports in the March *St. Nicholas* an interview with "Prof." Myers, the balloonist, in which he learned something about gunning for rain. One of the balloonist's first stories was about the rainfall experiments with balloons that he conducted years ago for the government. There was a theory to be tested that loud explosions at a height will make the clouds pour down water, and some gentlemen in the Department of Agriculture were anxious to set off as loud an explosion as possible, say a thousand feet up in the air. Professor Myers received this commission, and proceeded at once to Washington with a gas-balloon twelve feet in diameter.

"Don't you think that balloon is rather small?" asked one of the gentlemen.

"No," said Myers; I should call it rather large."

The other man shook his head. "I'm afraid it won't make noise enough to test our theory."

"Well," said the professor (I can see his eyes twinkling), "if this one doesn't make noise enough we'll get a bigger balloon."

They took the balloon some miles out of Washington (the professor insisted on this), filled it with a mixture of one third oxygen and two-thirds hydrogen (a terrible explosive), and sent it up about a quarter of a mile, with an anchor-rope holding it and with a wire hanging down to a little hand-dynamo or blasting-machine. As they made ready to turn this dynamo, Professor Myers lay flat on his back, eyes glued to the balloon, confident but curious. The handle turned, a spark jumped at the other end, and the ball of silk seemed to swell enormously and then vanish with a flash of a thousand shivers of silk. On this came the sound—a smashing and tearing blast louder than any thunder-crash or roar of cannon. It flattened men to the ground, killed hundreds of little fish in a stream near by (bursting their air-bladders,) knocked a bowling alley over like a mere house of cards, frightened cattle, and brought down rain in torrents within eight minutes. The Agricultural gentlemen were more than satisfied, and adopted the professor's system for extended rainfall experiments—only these (for obvious reasons) were conducted on the lonely and arid plains of distant Texas.

"It was n't much fun living down there," said the professor; "but we got rain whenever we wanted it."

* * *

Umbrellas are rarely seen in Poyta, Peru. It is the driest spot on earth. The average interval between two showers of rain is seven years.

THE PEOPLE KNEW HIM.

(Benson's Plaster Is Pain's Master.)

George Washington made and sold flour, and every barrel of flour in the market branded "G. Washington, Mount Vernon," sold without delay. No question was ever raised as to quality or weight.

Benson's Porous Plaster sells on its reputation everywhere. All the buyer wants to be certain of is that the plaster offered him *really is* Benson's, and not a worthless imitation of it or substitute for it.

A plaster is the best form of external remedy, and Benson's is the best plaster; 5,000 physicians and druggists, and a multitude of people no man can number, have settled that. "You can trust it," they say.

Coughs, colds, lame back, lumbago, muscular stiffness and rheumatism, troubles of the liver and kidneys, influenza or grip, pneumonia, and all other diseases open to external treatment, are *at once* relieved and cured by Benson's Plaster.

Do not assume that Belladonna, Capsicum or Strengthening plasters are "just as good as" Benson's. They are vastly inferior.—*No* other plaster is as good as Benson's.

In competition with the best-known plasters of Europe and America, Benson's have received *fifty-five highest awards.*

For sale by all druggists or we will prepay postage on any number ordered in the United States, on receipt of 25c. each.

Wall Paper! Wall Paper!

I wish to call the attention of my friends and the public in general to the fact that I now am ready to show one of the

Finest and Cheapest Lines of WALL PAPER

ever exhibited in this county, bought direct from the factory, in full bundle lots, so you get it only from second hands, no two or three profits coming off it. Of course the consumer pays them all. Sam Jones says it takes a pointer pup nine days to get his eyes open. I have known some people to get their's open in fifteen minutes in a wall paper deal. They thought it was two pieces instead of one, and the border they did not understand, &c. That is always their plea. Remember I am the only paper hanger in the county that carries a stock and don't have the expense of running a store, therefore I have no opposition. Is you think I can't save you money, come and see me and bring size of your room, or send size by mail and I will tell you what your job will cost, and send samples and convince you that Gladhill's is the place to save twenty-five cents on a dollar on all Wall Papers.

Why Not Cure Your Cough or Cold?

WESTMINSTER, April 10th, 1890.

MR. JOS. B. BOYLE:

Dear Sir:—For many years I have suffered intensely, on taking cold, from a very troublesome cough, for which I have used a number of various remedies, and obtained but TEMPORARY RELIEF. During the past Spring I was again troubled with the same cough, and through a friend was induced to try YOUR Pectoral Syrup, which not only gave almost INSTANT RELIEF, but a PERMANENT CURE. It gives me great pleasure to say that I believe it to be the best remedy I ever used for the purpose for which it is recommended. Hoping that any person afflicted as I was may be fortunate enough to give it a trial, I am, Truly yours,

ORDER OF PUBLICATION.

NO. 3867 EQUITY.

In the Circuit Court for Carroll County, sitting as a Court of Equity.

James Kiser et al., plaintiffs, vs. James Franklin Kiser et al., defendants.

The object of this Bill of Complaint is to annull and set aside a certain pretended deed or instrument of writing purporting to have been executed on the 24th day of March A. D. 1900 by Henry Kiser deceased to James Franklin Kiser and recorded among the Land Records of Carroll County in Liber J. H. B. No. 90 folio 285.

The bill further states that a certain Henry Kiser late of Carroll County, Maryland deceased was in his life time seized and possessed of a certain lot of land situate in Taneytown, in said Carroll County. That the said Henry Kiser died on the 30th day of January A. D. 1901, leaving surviving him as his next of kin and heirs at law, James Kiser a brother and Alice Kiser his wife, Mary Ann Shildt a sister, Emery Pitzer, a sister, and Levi Pitzer her husband, Phoebe Koontz a sister, and Jacob Koontz her husband, James Franklin Kiser and Alice Kiser his wife, Annie Zentz and Aaron Zentz her husband, Edward Kiser and Sabina Kiser his wife all of Baltimore City Maryland except James Franklin Kiser who is a resident of Carroll County, Samuel Kiser and whose wife's name is unknown, residents of Colorado, Grant Kiser and Minda Kiser his wife, residents of Fairfield, Nebraska, and John Kiser and Missouri Kiser his wife, residents of Hanover, Pennsylvania, children of William Kiser a deceased brother of Henry Kiser. The bill further states that for some time prior to the execution of the deed dated March 24th 1900 exhibit A referred to in the bill, the said Henry Kiser by reason of disease mentally and physically was unfit for the transaction of any business and incapable of making a valid deed or contract and remained in such condition up to the time of his death. That during the continuance of said infirmity and incapacity he was induced through fraud and misrepresentation of the said James Kiser to execute a certain paper purporting to be a deed and professing to convey the Real Estate mentioned in this bill of complaint to James Kiser, his heirs and assigns in fee, a certified copy of the deed being filed with the bill of complaint marked exhibit "A". That the said deed was executed by said Henry Kiser with out any understanding on his part of the obligations of said deed and by fraud and misrepresentations on the part of said James Franklin Kiser, and that the consideration expressed in said deed was never executed and was a total failure, the grantor never having lived with the said James Franklin Kiser and never having taken care of him from the time of the execution of said deed until his death but on the contrary the said Henry Kiser lived in his own property totally independent of the care and custody of the said James Franklin Kiser. That the said pretended deed unless set aside and annulled will deprive the plaintiff of their respective rights and interest in and to said Real Estate as next of kin and heirs at law of the said Henry Kiser and exclude them from participating in the estate of their brother who died leaving but little property outside the real estate. That said deed is wholly with out consideration and the pretended consideration is an utter failure and is fraudulent and void.

The bill prays that the said pretended deed purporting to have been executed on the 24th March 1900 be set aside and annulled, and for such further relief as their case requires; for the writ of subpoena directed against the defendant James Franklin Kiser, Annie Zentz and Aaron Zentz, Edward Kiser and Sabina Kiser and for an order of publication giving notice to Samuel Kiser and wife whose name is unknown, residents of Denver, Colorado, Grant Kiser and Minda Kiser his wife residents of Fairfield, Nebraska and John Kiser and Missouri Kiser his wife residents of Hanover, Pennsylvania, giving notice to them and each of them of the substance and object of this bill and warning them and each of them to appear in this court in person or by solicitor on or before a certain day to be named therein to answer the premises and show cause if any they have why a decree should not pass as prayed.

It is thereupon ordered this 8th day of March A. D. 1901 by the Circuit Court for Carroll County, in Equity, that the plaintiffs by causing a copy of this order to be inserted in some newspaper published in Carroll County once in each of four successive weeks before the 30th day of April A. D. 1901 give notice to the said non-resident defendants of the object and substance of this bill of complaint, warning them and each of them to appear in this court in person or by solicitor on or before the 22nd day of May A. D. 1901 to answer the premises and assert their claim if any they have, and to show cause if any they have why a decree should not pass as prayed.

Associate Judge.
