SATURDAY, JULY 6, 1901.

Readers of the *Advocate* will recall its comments on the Federal census last year and the course of reasoning by which it figured up a population of forty-odd thousand in Carroll county, instead of the 33,860 returned by the enumerators. Now the State enumerators return a population of 39,650 for the county, a net loss of 210 from last year. Will the *Advocate* admit the fallacy of its last year's reasoning or discover some other method of accounting for the failure of the State census to verify its figures?

The Weather.

The weather for the past week has been the universal and principal topic of discussion over a large portion of this great country. For ten days a phenomenally hot wave has lain upon a large area of the country, from the Rocky mountains to the Atlantic ocean. In fact the intense heat began, practically, on Monday of last week, when the official record of the maximum temperature at Baltimore was 89°. By Wednesday it had climbed to 99°, Thursday it reached the same point, Friday 93°, Saturday 96°, Sunday 98°, Monday 103°, Tuesday 103 2-5°, Wednesday 97°, Thursday 96°. What it was yesterday is not known at this writing, but it is safe to say it was well up in the 90s, the Signal Service Bureau promising no prospect of an immediate mitigation of the intense heat. For a couple of days Baltimore was the hottest place, from the official record, in the United States, and it wasn't much, if any, cooler in this locality.

The mortality and prostrations from the intense heat in the large cities of the country have been frightful, mounting high up into the hundreds in Baltimore, New York, Philadelphia, Cincinnati, Chicago and St. Louis. Kansas City, Mo., recorded the highest temperature on Thursday, 104°.

It may be interesting to believers in Hick's predictions to note that he forecasts a storm period from July 1st to 6th, and says: "The oncoming storm areas may be attended with very high temperatures in scattered sections of this and other continents; but we predict that phenomenally low temperatures will be realized generally."

A thunderstorm, with quite a heavy rainfall, on Thursday, brought a temporary mitigation of the extreme heat, but the respite was of brief duration. As our correspondents generally state, harvesting wheat has been retarded considerably in consequence of the torrid temperature, neither man nor beast being able to endure an entire day under the blazing sun. Some prostrations are reported but no fatal cases except that of Theodore Nimergal, at the alms house.

THE STATE CENSUS.

The census of this State, taken under State authority, at an expense of something like $50,000, must be thoroughly disappointing to those Democrats who were morally certain that the Federal census was entirely unreliable, and that the General Government could not be depended upon to correct accidental or willful errors. The result of this State census proves the substantial accuracy of that taken last year, except in St. Mary's, Charles and Anne Arundel counties, where there was willful padding of the lists by some of the enumerators, and in Kent county, where, by some unexplained cause, the population as returned by the Federal census was 999 in excess of that taken by the State. The errors in the three counties first named were corrected by the General Government long before the conclusion of the State census and would have been corrected in any event, so that the expenditure of the taxpayers money to get a new census and prevent St. Mary's, Charles and Anne Arundel counties from getting additional representation in the House of Delegates, as they would have done under the original Federal census, was entirely unnecessary, except in Kent county. St. Mary's, Charles and Anne Arundel counties are expected to give Republican majorities, and, very naturally and properly the Democrats objected to an unfair enumeration by which the Republicans would have profited. They raised no question about the the accuracy of the Kent county enumeration, by which they would have gained a member of the House of Delegates, Kent being a Democratic county, and, strange to say, the Republicans accepted it without objection. The State census in that county, however, whether accurate or not controls in fixing the representation and makes it one less than it would have been if that census had not been taken.

The net result, therefore, of the Democratic legislation at the extra session is the loss of one Democratic representative in the House of delegates. And this is the price the Democrats must pay for unnecessarily expending between $40,000 and $50,000 of the people's money on a State census for the purpose of gaining party advantage.

Following are the figures showing the State and Federal censuses by counties, the State's enumeration indicating a population of 11,350 less than that made by national authority:

Sunday was the thirty-eighth anniversary of the Battle of Hanover, Pa., fought in the streets June 30, 1863, between 5,000 Union cavalry under General Kilpatrick and 6,000 Confederate cavalry under General Stuart.

Dr. Byron Sunderland, for nearly half a century pastor of the First Presbyterian Church, Washington, D. C., died at Catskill, N. Y., on Sunday, in his 82nd year. He was Mr. Cleveland's pastor when the latter was President.

Assault With Intent to Kill.

Luen Gill, who was placed on trial in the Circuit Court for Baltimore county at Towson, on Friday of last week, charged with assaulting his father-in-law, Mr. William Willingham, of Parkville, with intent to kill, on April 27th last, was found guilty of common assault by the jury after that body had been out all night. A sealed verdict was brought in and opened at 10 o'clock Saturday morning. Sentence was suspended and Gill was released on $500 bail furnished by his brother-in-law, the Rev. Joseph P. Wilson, pastor of the Roland Park Methodist Episcopal Church.

It is thought that he will be paroled. The crime for which Gill was tried was committed on the night of April 27th last. His wife, who was the daughter of Mr. Willingham, had left him several months before that time and had gone back to the home of her father. On the morning of the 27th, Gill left the Rev. Mr. Wilson's home, on Third avenue, and started for Parkville. Late at night he met his father-in-law going home, and the altercation which ensued resulted in a fierce duel.

Mr. Willingham was armed with a corn knife, and Gill with a sledge hammer. After a hand-to-hand encounter Mr. Willingham received a blow on the head which fractured his skull. The injured man's son then went to the rescue and fired a shotgun at Gill.

The charge took effect in his face, totally blinding him. He was found the next day wandering helplessly in the woods near Parkville, and was taken to the Maryland General Hospital, where he remained for a month.

The parties are all well known in Hampstead and vicinity, where the case excited much interest.

Western Md. Pays Promptly.

The Western Maryland Railroad on Saturday made the half-yearly interest payment on the Baltimore city stock debt, amounting to $81,578.33. The quarterly interest on the sixth mortgage, which is not due until September, as well as the interest on the fourth and fifth mortgages, all held by the city, was also paid.

Besides the interest on these loans, the company paid the Baltimore Finance Commissioners the interest on Western Maryland securities in the sinking fund, the payment amounting to $15,688.16, and the rent on the depot property of $2,088.45. Altogether the payments on Saturday amounted to about $100,000.

While a fast freight train was passing through the tunnel of the Pennsylvania Railroad, east of Union Station, Baltimore, on Saturday morning last, a cave-in occurred on Hoffman street a few feet west of Harford avenue. A section of the masonry and earth above the tunnel, comprising hundreds of tons of debris, went down, catching and crushing several cars of the train. Fortunately nobody was hurt, but some of the feight was perishable and was lost. Of course travel was badly obstructed, but energetic efforts have about cleared the tracks. It is feared other portions of the tunnel may give way. Assistant Building Inspector Newmann, in making an examination, discovered large wooden girders extending along the top of the tunnel through four of the ties or layers of the brick work. These girders had rotted and, of course, the arch thereby became weakened. It transpires that it has not been the practice of the Building Inspector of the city to examine the tunnels, but he will hereafter be charged with that duty, and ought to be able to avert such an accident as that which occurred in this case. Fortunate indeed is it that the train caught beneath the earth and masonry of the collapsed tunnel was not carrying passengers, or a frightful loss of life would have resulted.

Eleven people were killed by a stroke of lightning at Chicago on Monday. They were men and boys who had taken refuge from a thunderstorm in a zinc-lined shanty under a pier on the north shore. The men had been fishing and the boys wading about the shore and when the storm arose they hurried to the shanty, which was struck by the bolt. In ten minutes time, as a witness of the scene alleges, "their bodies lay with twisted and tangled limbs 'like a nest of snakes.'" Twelve people were in the shanty, of whom only one survives. He was a lad aged twelve years, who lay stunned, but not fatally injured, under a heap of dead bodies. The victims were three men aged 18, 23 and 45 years respectively, two unknown men, three boys from 11 to 12 years old and three unknown boys.

The Alumni Association of the Franklin High School, of Reisterstown, held its regular biennial reunion at the school on Friday night of last week, and elected the following officers to serve until the next meeting: President, Mr. Howard Russell, of Reisterstown; vice president, Miss Rena Yingling, of Reisterstown; recording secretary, Mrs. Jason E. Crout, of Baltimore; corresponding secretary and historian, Mrs. P. H. Zorock, of Reisterstown, and treasurer, Mr. W. B. Wooden, of Hampstead. The meeting was the most largely attended in the history of the association.

Mrs. Susan Ann Gosnell, 91 years of age, died at her home at Harrisonville, Baltimore county, on Sunday, of old age. She was born in the village of Wards, and was a lifelong member of the Wards Methodist Episcopal Church. Mrs. Gosnell is survived by two daughters. They are Mrs. Franklin O'Dell and Mrs. Annie M. Shirley, widow of William H. Shirley.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by the Shaw Drug Company.

TO THE PATRONS OF THE WESTMINSTER WATER COMPANY.

For the purpose of relieving misapprehension engendered by jealous rivalry the Westminster Water Company makes the following statement:

It will place, as it has already done in a large number of homes, a complete bathroom outfit consisting of the best porcelain enamelled bath tub, closet, and marble wash stand, and the necessary piping, and the water for $10.00, payable $10.00 per year, until the end of ten years when said outfit becomes the property of the consumer or owner of the premises.

Or said outfit can be paid for in cash at cost when placed and become at once the property of the consumer or owner of the premises.

Or we will sell to any patron of our Company any single piece of the outfit at cost.

The first proposition was made and is repeated for the reason that it enables any family to possess a first-class bath outfit on easy terms.

This outfit three years ago cost the people of Westminster from $250.00 to $300.00. The very same material at that time cost less money than it does now. This enforced reduction in profit is "the nigger in the woodpile."

Now the Clearing Sales of July.

There's more than one good reason for phenomenally low prices in the month of July. It's the best clearing time for summer merchandise. It's easier to sell it just when you can make the most use of it. It's better to sell it, even at a sacrifice, than to carry into another season, and thus keep capital involved. It's against our plan of merchandising to carry goods over, anyway. We turn capital quickly and keep it turning. It means smaller profits for us, but more of them. *And it means better values for you. Stocks must be reduced during this month.*

We begin this Clearance Sale by offering you

10,000 YARDS OF 10 AND 12½C

Lawns, Dimities and Madras Ginghams,

not a yard ever sold for less than 10 cents, most of them 12½ cents, but they go now at

5c yd.

1000 yards, all red, Crash Skirtings, regular price 12½c a yard, but on account of having this big quantity all one shade, we say

3c yard.

SALE OF MUSLIN UNDERWEAR CONTINUED.

This sale has been brilliantly successful. That our goods have satisfied your severest tests is proven by the fact that you have bought so fast that our capacity has been constantly taxed.

We have been modest in our statements regarding the virtues of the garments, preferring to disappoint you agreeably rather than the reverse. We decided to let the universal high character of the goods speak for them. You have examined critically. You tested our garments with others'. Nowhere have you found such ample cut, such "quality" in material, such originality in style and deft beauty in trimming.

Small wonder then that women have flocked here during this remarkable sale.

See the Bargain Tables of Muslin Underwear before it is too late, at

10c, 15c, 25c, 50c, 75c and $1.00.
