Hicks' Forecasts for August.

A Venus period of pertubation is central on July 31st, the moon is at full and near the equator on the same day with the reactionary storms due at the end of July still existing toward eastern parts of the country. Threatening, stormy weather may therefore be expected in many quarters as August comes in. As the Moon does not pass over the equator until the 3rd and as its perigee does not fall until the 6th the chances are lessened for dangerous gulf storms. A season of menacing storm conditions may hover over that region until after the Vulcan storm period central on the 6th and extending to the 9th. If all three of these Moon phrases had fallen on the same date, at this time of the year and in a Jupiter period, it would have foreboded possible violence on and about the gulf. From about Tuesday, the 6th, to Friday, the 9th, look in all prabability for a very warm wave to culminate in thunder storms, with heavy hail and some high winds. Following these storms no one need be surprised at a very marked fall of temperature. There should certainly be an abatement of summer heat, for a few days between this vulcan period and the reactionary disturbances central on the 13th and 14th.

The temperature will rise very high in many places about the time of new Moon on the 14th, low barometric conditions will develop, and electrical, blustering storms will break out generally, the general tendency to which will continue until after the Moon moves south of the equator on the 16th.

A brief relaxation from high temperatures ought normally to appear between storms of the 13th and 14th, and the Vulcan period, 17th to 21st, in which case the rise of temperature, falling barometer and storms of the latter period will fall about Sunday the 18th, to Tuesday the 20th. We know of no reasons why we should expect a decided change from very dry weather generally in August, but some startling downpours of rain and hail are quite probable in narrow localities, on the central storm days throughout the Venus period, which continues until after the middle of August, or until the effects of the Earth's September equinox begin to make themselves felt. These intense local storms will be preceded by very high temperatures, vicious thunder and lightning will result in the immediate storm paths, and phenomenal drops in the temperature will follow the sections covered by the storms, thence spread into wider areas, cooling off the heated atmosphere generally.

On and touching the 17th, 18th, 19th and 20th, many severe summer storms may be apprehended in various parts of the interior, and on the lakes and sea coasts.

One of the changes will very likely be too much cooler weather generally, running, with occasional brief changes to warmer, into September, which month we believe will not be so terribly warm as it has been the past few years.

On and touching the 24th and 25th, reactionary storm conditions will develop, causing a rise of temperature, falling barometer and heavy, blustering thunder storms in paths progressive from west to east. About this time West India, equatorial storms and cyclones will, in all probability, be forming down about the equator. The last four or five days in August, running into the opening days of September, storms of equinoctial origin are very probable along the islands adjacent to our south coasts, and at exposed points in and around the gulf region.

The Moon is on the celestial equator on the 30th and in perigee on September 1st. The regular Vulcan storm period is central on the 30th, extending from the 28th to September 1st. The autumnal equinox being advanced in its disturbing power at this period, there are good and sufficient reasons why all concerned should prudently watch for the coming of forceful West India storms, and for the high tides that naturally accompany these disturbances, especially on the south side of our continent and along the waters next thereto.

Third.—By amending section 2 of Article 3, of the Constitution of the State, which said bills and amendments are in words following, to wit:

CHAPTER 185.

AN ACT to amend section nine, of Article 5, of the Constitution of this State, and to provide for the submission of said amendment to the qualified voters of this State for adoption or rejection.

SECTION 1. *Be it enacted by the General Assembly of Maryland*, (three-fifths of all the members elected to each of the two Houses concurring,) That the following section be and the same is hereby proposed as an amendment to Article 5, of the Constitution of this State, and if adopted by the legal and qualified voters thereof, herein and as by law provided, it shall supersede and stand in the place and stead of section nine of said Article.

SECTION 9. The State's Attorney shall perform such duties and receive such fees and commissions or salary not exceeding three thousand dollars, as are now or may hereafter be prescribed by law; and if any State's Attorney shall receive any other fee or reward than such as is or may be allowed by law, he shall, on conviction thereof, be removed from office; provided that the State's Attorney for Baltimore city shall receive an annual salary of forty-five hundred dollars, and shall have power to appoint one deputy, at an annual salary not exceeding three thousand dollars, and such other assistants at such annual salaries not exceeding fifteen hundred dollars each, as the Supreme Bench of Baltimore City may authorize and approve; all of said salaries to be paid out of the fees of the said State's Attorney's office, as has heretofore been practiced.

SECTION 2. *And be it further enacted*, That the foregoing section hereby proposed as an amendment to the Constitution of this State, shall be, at the next general election for members of the General Assembly, to be held in this State, submitted to the legal and qualified voters thereof for their adoption or rejection, in pursuance of the direction contained in Article 14, of the Constitution; and at said election the vote on said proposed amendment shall be by ballot, and upon each ballot there shall be written or printed the words "For the Constitutional Amendment" or "Against the Constitutional Amendment," as the voter shall elect, and immediately after said election one return shall be made to the Governor of the vote on said proposed amendment, as directed by the said Fourteenth Article of the Constitution.

2. The City of Baltimore shall be divided into four legislative districts as near as may be of equal population and of contiguous territory, and each of said legislative districts of Baltimore City, as they may from time to time be laid out, in accordance with the provisions hereof, and each county in the State, shall be entitled to one Senator, who shall be elected by the qualified voters of the said legislative districts of Baltimore City, and of the counties of the State, respectively, and shall serve for four years from the date of his election, subject to the classification of Senators hereafter provided for.

SEC. 2. *And be it further enacted by the authority aforesaid*, That the said foregoing section hereby proposed as an amendment to the Constitution shall at the next election for members of the General Assembly of this State, to be held on the Tuesday next after the first Monday in the month of November, nineteen hundred and one, be submitted to the legal and qualified voters thereof for their adoption or rejection, in pursuance of the directions contained in Article 14 of the Constitution of this State; and at the said election the vote on said proposed amendment to the Constitution shall be by ballot, and upon each ballot there shall be written or printed the words, "For the Constitutional Amendment," or "Against the Constitutional Amendment," as the voter shall elect, and immediately after said election due returns shall be made to the Governor of the vote for and against said proposed amendment, as directed by the said Fourteenth Article of the Constitution.

Approved April 7, 1900.

NOW, THEREFORE, I, JOHN WALTER SMITH, Governor of the State of Maryland, in pursuance of the provisions of section one of Article fourteen of the Constitution of the State, do hereby order and direct that a copy of said bills proposing said Constitutional Amendments be published in at least two newspapers in each county where so many may be published, and where not more than one may be published, then in that newspaper, and in three newspapers in the City of Baltimore, one of which shall be in the German language, once a week for at least three months preceding the next ensuing general election (which said general election will be held on Tuesday, the 5th day of November, nineteen hundred and one), at which the said proposed amendments shall be submitted to the qualified voters of the State for adoption or rejection, so that each amendment shall be voted on separately.

Wall Paper!
Wall Paper!

I wish to call the attention of my friends and the public in general to the fact that I now am ready to show one of the

Finest and Cheapest Lines of
WALL PAPER

ever exhibited in this county, bought direct from the factory, in full bundle lots, so you get it only from second hands, no two or three profits coming off it. Of course the consumer pays them all. Sam Jones says it takes a point pup nine days to get his eyes open. I have known some people to get their's open in fifteen minutes in a wall paper deal. They thought it was two pieces instead of one, and the border they did not understand, &c. That is always their plea. Remember I am the only paper hanger in the county that carries a stock and don't have the expense of running a store therefore I have no opposition. Is you think I can't save you money, come and see me and bring size of your room, or send size by mail and I will tell you what your job will cost, and send samples and convince you that Gladhill's is the place to save twenty-five cents on a dollar on all Wall Papers.
