Sir

Cecil County October 2d. 1814

By order of Genl. Smallwood I was left behind to take Care of the Hospitalls established here for the Reception of the Sick belonging to the maryland marching Militia; upon application to the Genl. for money to purchase such necessaries for the Sick as they might want, he informed me that I could not be supplyd till the Paymaster arrived at Camp, and upon inquiry am informd he has not come up yet — as there is an immediate Demand for money for the above purpose I take this opportunity by Mr. McBride, to inform your Excellency of it, and should be glad to be furnished with money for above purpose, that they may want nothing comfortable in their present distresses.
