Sir

I received your Letter requesting I would make enquiry whether any of the prisoners in Frederick Goal charged You as an associate in their plot — I applied to Dr Thomas and Colel Johnson to know what You was accused of — and the answer they gave me was that some person in Washington County had complained something against You — but could not say what it was —

I apprehend You will not come under the Act for high treason — As soon as I can inform myself certainly what is alledged against You, will let You know —

Yours &c
