GEORGE E. SHARRER,
Chairman.

The Right Reverend Leighton Coleman, Bishop of the Episcopal Church of Delaware, in a sermon at All Saints' Church, Rehoboth, on Sunday last, denounced the practice of women attending church services with their heads uncovered. He says the practice is unscriptural and unchurchly. Women would be surprised, he said, to see men appear in church with their hats on, but it would be no worse than for women to appear without their hats. If the Bishop's interpretation of scripture on the subject be correct the practice should speedily disappear. It is becoming quite prevalent, and seems to have been silently acquiesced in by many clergymen. But if there be a scriptural warrant for its inhibition the clergy should not hesitate to be outspoken against it. Otherwise it is a mere matter of taste and not wrong in itself. What do clergymen in this locality, where the practice is to some extent prevalent, have to say about it?

The Harford county Democratic convention, which met at Belair on Tuesday, adopted the unit rule and elected an unpledged delegation to the congressional convention, which will meet in Havre de Grace on the 28th inst. It is said that a majority of the delegates from Harford is opposed to the nomination of Hon. J. Fred. C. Talbott and, as a majority means a solid vote, the action of the Belair convention means Mr. Talbott's defeat, if the report be correct, even if he shall carry the Baltimore wards forming a part of the district. In that event he would only control half the votes of the nominating convention, but would be able to cause a deadlock and possibly dictate the nomination. It is said, however, that the city wards are by no means to be set down as certain for him and, consequently, there appears to be a fair prospect that Carroll county's demand for the nomination of Mr. Fink may be honored and he become the nominee of the Havre de Grace convention.

The miners' strike in Pennsylvania is developing, as is apt to be the case in a prolonged struggle of this character, some unfortunate and reprehensible features. A week ago, for instance, General Gobin, who is commanding the State troops employed in efforts to preserve order in the mining regions, received a letter from the wife of a non-union miner, who is employed in a colliery at Turkey Hill, imploring him to protect her from the violence of the strikers. She says it is necessary for her husband to work to keep her and their children from starvation, but he is obliged to remain in the mine to escape personal injury. As the strikers were unable to vent their vengeance on him they turned their attention to his family, threw stones through the windows of the house and came near striking her sleeping child. The house was damaged. When outside of the house at night, on one occasion, she was fired at. The woman's request received the necessary response and she will be protected. It is a gratification to know that the attempt to harm her was not made by native born miners, Lithuanians having been employed, chiefly, in the Turkey Hill region. Americans understand that, while it is their privilege to refuse to work unless paid such wages as they may demand, they are transgressing other men's rights when they undertake to coerce them into idleness, by attacking them or their families.

Volcanic and Seismic Disturbances.

Volcanic and seismic conditions appear to be prevalent in different and widely separated portions of the earth. Following the eruptions of Mont Pelee, on the Island of Martinique, and Soufriere on the Island of St. Vincent, a report comes from Managua, Nicaragua, that one of the Masaya volcanoes, in that country, is showing signs of activity. For 25 days past it has been emitting vapors, accompanied by groaning sounds. Grave fears are entertained that an eruption is impending. The volcano is at an elevation of 3,000 feet and at its base the town of San Fernando de Masaya, with a population of 22,000, is located. The people are in dread of incurring the fate which befel the inhabitants of St. Pierre, Martinique, by the eruption of Mont Pelee.

Advices from Skagway, Alaska, tell of severe earthquake shocks at that place on Sunday. One of the shocks lasted 50 seconds. Plate-glass windows were broken and chimneys tumbled down. The water in a canal rose five feet, suddenly, and as quickly subsided. At Juneau several boats were capsized. These disturbances indicate that the causes which produce them are active and that seismic manifestations may be expected anywhere and at any time, and that volcanic regions may be visited by eruptions also.

Light frosts were reported in the northern part of Nebraska and the southern part of South Dakota, on Monday.

TROUBLE FOR BLAKENEY.

Under the above caption the writer of political notes for the Baltimore Sunday *American* has this to say in last Sunday's issue of that journal:

> In the Second district the signs have until lately pointed to the renomination of Mr. Blakeney. Now trouble for him is beginning to show above the political horizon, and there may be slaughtering done in the convention. Mr. Blakeney is charged with inability to show himself and to mix with the people as a candidate for re election is expected to do. Thus, it is charged that since his election in 1900 he has never visited the city wards included in his district, and has also given Harford and Carroll counties the cold shoulder. These things tell in the end, and it is already virtually assured that the city wards and Harford county will fight Blakeney at the primaries and in the convention. Carroll is grumbling, and is endeavoring to form an alliance by which she can take the honor for herself, nominating one of her own sons as the Republican candidate for Congress in the Second district.

The SENTINEL is not aware that anybody in Carroll county is making, or intends to make, trouble for Mr. Blakeney, whatever may be brewing in reference to his proposed renomination in other portions of the district. The general sentiment here seems to be tacit acquiescence in that renomination and many Republicans regard it as a courtesy that should be conceded without question. The SENTINEL holds to that view of the case, and has no knowledge that any citizen of Carroll has the slightest desire to enter the list for congressional honors at this time. Judge Reifsnider has some warm friends, not only in Carroll, but in other sections of the district, who would like to see him make a contest for the nomination. But he emphatically declines to do so.

At the present time there appears to be no ground for doubting that Blakeney delegates will be sent to the nominating convention, from Carroll county, without opposition.

Big Cereal Crop.

If the estimates of experts are to be taken at their face value the cereal crops of the United States for 1902 will be the most bountiful ever gathered and a decrease in prices may be expected. It is just possible, however, that the estimates sent out from Chicago, which seems to be the center of expert calculations, may have something of a speculative basis and should be taken with some grains of allowance. The estimates, however, are interesting and may be reliable. From data furnished by the crop economists it is declared that the profits for the farmers will be $2,000,000,000.

"The calculation," it is stated, "is based on an average of the estimates of statisticians. This average gives approximately the following results:

	Bushels.
"Wheat	633,500,000
"Corn	2,539,951,000
"Barley	120,900,850
"Rye	30,350,800
"Oats	750,528,724
..Total cereal crop	4,075,231,374

"All along the line from the States in the great grain-growing belt come cheering messages. Wisconsin announces that she has the biggest oats crop she ever raised and that her corn is in excellent condition. Indiana calls her corn crop "phenomenal" and submits the figures—170,000,000 bushels—to prove it. Nebraska declares she has 40,000,000 bushels more corn in her fields than she ever had before; Illinois hopes to add nearly 100,000,000 to her last crop of that cereal. Ohio makes her wheat crop practically the same as last year's and raises her corn limit 15,000,000 bushels.

"Kansas will not raise more than half as much wheat as she did in 1901, but she compensates for this loss with a corn crop five times as large—unofficially estimated at 300,000,000 bushels, virtually the government figures of a month ago. Oklahoma promises something like 150,000,000 bushels of wheat and 38,000,000 of corn.

"Up in Minnesota and the Dakotas the harvest of wheat has begun with a condition above 90 points. Nearly everywhere the corn in the fields bespeaks a magnificent crop and the oats output, it is said, will exceed that of 1899.

"Until the thrashers began to tell their joyous tales it was believed the wheat crop would not come up to the record-breaking total of a year ago, but some statisticians now believe that the crop of 1902 will exceed that of its predecessor by at least 25,000,000 bushels. This is the latest estimate of B. W. Snow, one of the best known crop experts in the country. His total is 778,000,000 bushels. The same authority says the corn harvest will be 2,500,000,000 bushels, or nearly double that of a year ago. He puts the oats crop at 885,000,000 bushels."

Second District Republican Convention.

The Republican State Central Committeemen from the counties and wards comprising the Second Congressional district met on Friday night, 8th inst., at the Young Men's Republican Club, on West Saratoga street, Baltimore, and decided to hold the Congressional Convention for the district at Westminster on Tuesday, September 2, at noon.

It was decided to hold the primaries in Baltimore county on August 29 and the County Convention at Towson on September 1, at noon.

The primaries in the remaining counties and wards will be held on August 30.

Mr. C. C. Pusey, of Havre de Grace, who presided, was authorized to call the Congressional Convention to order.

The Fifteenth and Sixteenth wards were each given two votes in the Convention.

As Baltimore county will have seven votes in the convention it will be seen that whenever it may be united with these wards or with either Carroll or Harford county that combination will have a majority and control such convention.

A Prosperous Order.

The annual report of Supreme Chancellor Fethers to the national biennial convention of the Knights of Pythias, in session at San Francisco, this week, shows the order to be in a very prosperous condition. The report states that on December 31, 1901, the order had 540,138 affiliated members. To this should be added, the report says, at least 500,000 who have been suspended for non-payment of dues or who have taken withdrawal cards, making a total of more than 1,000,000. During 1901 the figures were: Initiated, 55,202; reinstated, 7,733; admitted by card, 7,677; total, 70,616. During the same year 4,915 died, 268 were expelled, 8,378 withdrew by card and 32,857 were suspended. The net gain for the year was 23,194.

The report of Maj.-Gen. James R. Carnahan, commander of the Uniform Rank, shows that there are 858 companies in good standing, organized into 99 regiments and 24 brigades. There are, in addition, 25 separate companies, and warrants have been issued for 23 more. The growth of the rank during the last two years, he said, has been most excellent.

Hon. Horace Gray, of Massachusetts, one of the Justices of the Supreme Court of the United States, has retired, on account of ill health, and President Roosevelt has selected Hon. Oliver Wendell Holmes, Chief Justice of the Supreme Court of Massachusetts, as his successor. Justice Gray was appointed to the Supreme Bench of the United States by President Arthur, in 1881, and has reached the age of 74 years, having served with distinguished ability for nearly 21 years. Only one of the present judges of the court, Justice Harlan, has served for a longer period than he.

King Edward VII and Queen Alexandria, of England, were crowned in Westminster Abbey on Saturday last.

Hon. James McMillan, senior United States Senator from Michigan, died at 4 o'clock, Sunday morning, at Manchester-by-the-Sea, Mass., of heart-failure, at the age of a little past 64. Senator McMillan was a native of Hamilton, Ontario, where he was born May 12th, 1848, his parents having been natives of Scotland. He left school at the age of 14 years, spent four years in a hardware store, mastered the details of the business and then went to Detroit, Mich. There he passed two years in a wholesale hardware store. At the age of 20 he was purchasing agent of the Detroit and Milwaukee Railroad. In 1864 he was one of the four men who formed the Michigan Car Company, out of which grew other important enterprises, and he amassed great wealth. He was elected to the United States Senate in 1889, re-elected in 1895 and again in 1901. He was a strong man intellectually, bore a high caracter for purity and integrity in business and in politics, and his judgment and action as a Senator were of value to the country. It is highly probable that his days were shortened by the excessive demands of public and private business upon his time and strength. He leaves a widow, three sons and a daughter.

A terrific cloudburst at Madison, N. J., on Sunday night, flooded a brook which traverses the lower part of Hillside Cemetery to such an extent that for a space of 400 by 50 feet the graves were washed out and 75 caskets uncovered. Coffins were strewn about in all directions. Some bodies were found a mile from the cemetery and it is thought that others were carried into the Passaic river.

There was a large gathering Saturday of Federal and Confederate veterans and citizens on the Cedar Mountain battlefield, in Culpeper county, Va., and interesting exercises were held. It is said that no bitterness of feeling growing out of the Civil War was manifested by anybody on the occasion and that the Federal veterans received a most cordial greeting and hospitable entertainment by their old time enemies.

The farm of the late John T. Best, known as Maple Lawn, containing 109¼ acres, one mile south of Frederick, was sold at auction Tuesday to State Senator Jacob Rohrback and his brother Allen at $125.75 an acre. This is the highest price paid for farming land for some years in Frederick county.

By reference to the call at the head of the editorial columns of the SENTINEL, this week, it will be seen that the Republican primary meetings in this county are to be held on Saturday, 30th inst., and the county convention on the following Monday, September 1st.

Brooklyn boasts a centenarian, named Ralph Bullock, who on Tuesday celebrated his 104th birthday with great jollity, amid the congratulations of 170 great-grandchildren. He talked, laughed and sang, we are told, on his birthday and announced his intention to celebrate six more.

The annual tournament and picnic in Warfield Grove, near Cooksville, Howard county, was held on Wednesday, under the direction of Mr. Seth M. Warfield.

Much property was destroyed at Kansas City, Mo., on Sunday, by a storm which raged for several hours The wind attained a velocity of 52 miles per hour.

That able jurist and honorable gentleman, Associate Judge David W. Sloan, of Cumberland, died on Saturday last of Bright's disease, after an illness of 18 months.

The miners' strike in the anthracite coal region is now in its fourteenth week, with no break in the ranks of operators or miners in sight.

The London Hotel San Angelo, Texas, was destroyed by fire on Sunday and seven persons perished in the flames.

Twenty houses were unroofed and other damage done by a storm at Trenton, N. J., on Sunday.

Do You Know?

Do you know that I have purchased the stock and fixtures of A. H. Wentz?

Do you know that I had been with him for the past nineteen years?

Do you know that I am in a position to know the people's wants?

Do you know that I will get what they want if I have not got it in stock?

Do you know that I am going to make the prices lower than heretofore?

Do you know I do my own work on repairing Watches, Clocks and Jewelry, and can afford to sell cheaper than before?

Do you know that I will guarantee all work done and guarantee all goods sold to be just as represented, refund money or give new goods in their place?

A call will convince you that my prices are right in comparison with quality.

Respectfully yours,
