CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-good" are but Experiments, and endanger the health of Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

Bears the Signature of

Chas. H. Fletcher.

In Use For Over 30 Years.

THE CENTAUR COMPANY, NEW YORK CITY.

THE RAIL FENCE.

It roves the farm all over
With awkward stepping feet,
Here close beside the clover,
There just beyond the wheat
Along the fallow fragrant
For woodland ways it makes,
And many a sylvan vagrant
As boon companion takes.

It loves the woodbine tangles,
Invites the milkweed pod—
And all its sunny angles
Laugh out in goldenrod.
Beneath the crevieed rider
The cricket's shrill close hid
And from the stake beside her
Complains the katydid.

The squirrel is its lover
And unafraid and fond
Are bobolink and plover
Of the genial vagabond,
Of all around, about it,
It has the confidence,
And man and nature love it—
The homely old rail fence.

Useful Suggestions.

Crockery ornamented with gilt bands or figures should be washed quickly and drained dry, never wiped even with a soft cloth.

Carpet tacks are said to be more effective than shot for cleaning glass jars. Half fill the jars or bottles with hot soapsuds, add the tacks, and shake vigorously.

To clean a kettle in which onions or other rank vegetables have been cooked, rub with a cloth dipped in hot, strong soda water. Then wash in soapy water.

Lukewarm water only should be used to clean chamois leather. The leathers are washed exactly like clothes, and when they are dried should be rubbed between the hands to soften them.

When choosing carpets don't choose one with a large pattern for a small room. A small pattern makes a room look larger, whereas a large pattern has the contrary effect.

To perfume linen take of rose leaves dried in the sun or some distance from the fire, one pound; of cloves, carraway seeds, and allspice, of each one pound; pound in a mortar or grind in a mill, add four ounces of dried salt. Mix well and tie up in little bags.

Cane-seated chairs can be furbished up by having the seats washed all over with warm water. Do this in the open air on a sunny day. As well as bestowing cleanliness upon the cane, it makes it last twice as long as if left alone.

Iron pillow slips lengthwise instead of crosswise if you wish to iron wrinkles out instead of in.

A very young house keeper frequently makes the mistake of planning for a great variety of dishes when she might for the same outlay have the very best cuts of meat and an abundance of the substantials.

Save soapsuds if you have a garden, for they form a very useful manure for flowers, as well as shrubs and vegetables. It is well to have a sunk tub in every garden where the soapy water can stand till required for watering.

To clean plaster of Paris, mix a small cupful of whitening with hot water until of the consistency of thick cream, then with a small brush paint the cast all over evenly with the mixture.

Wooden picture frames, whether oak, walnut, or any other polished wood, may be greatly improved in appearance by being rubbed with a mixture of turpentine and linseed oil. The proportion is one tablespoonful of turpentine to three of linseed oil. Apply with a small piece of cloth or flannel, and rub until quite dry.

How to Keep a Pure Refrigerator.

If the subject of a pure, immaculate refrigerator was more written upon and discussed there would be fewer cases of fever, and it behooves every new beginner in house-keeping to learn the very best methods, if they have had no training. A carelessly kept refrigerator is a menace to the health of the family. Nothing takes on impurities and taints like milk and butter. A careful housewife must inspect the refrigerator and the contents every day. To cleanse and purify and disinfect, powdered borax and warm water is the best solution to use. A few minutes work every morning will suffice to keep it in good condition. The water pipes must be cleaned once a week. Remove all the contents and fit a small corn-cob in the lower end of the pipe. Prepare a strong solution of hot water and borax, then pour it into the upper end of the pipe and let it stay for an hour; then let the water run out. Rinse well, and after a good airing it will be pure and sweet. From many standpoints it behooves a house-wife to look well after the refrigerator. Health and home happiness depends upon it greatly.

Mistress (to new servant)—"There are two things, Mary, about which I am very particular; they are truthfulness and obedience."

Mary—"Yes'm: and when you tell me to say your not in, when a person calls that you don't wish to see, which is it to be, mum—truthfulness or obedience?"

Health Hints.

Three pints of water daily should be drunk by the average man.

A gargle of salt and water is a remedy for an ordinary sore throat.

Water standing in a room is a great disinfectant, as it absorbs all impurities.

There is nothing more soothing in cases of nervous restlessness than a hot salt bath just before retiring.

Girls and women are benefited by riding the bicycle, but the fair sex is cautioned not to over-exert.

The grape fruit is said to have in smaller degree the qualities of quinine, and will actually allay inflammation and break up malarial disorders if taken in time. It acts directly on the liver, and possesses mild purgative properties.

Let the lashes alone. Too much trimming is certain to weaken the strength of the eyes. Girls who go to the hairdresser's every week or so to have their hair clipped or crimped, and permit the officious operator to shape their lashes, may be paying for eyeglasses in a few years.

People will eat hot dishes and wash them down with iced drinks, and then wonder why their teeth can't stand such a terrific and sudden change of temperature. It's a marvel that the teeth do not crack completely with the alternate roasting and freezing. Filled teeth are extremely sensitive to such action, and neuralgia frequently results.

When a speck of dust or metal gets into the eye, the best plan is to shut it, and keep it shut for over a minute. Nature will then come to the relief, and there will be enough tear-like moistnre to get rid of the obstruction, which will be found in one of the corners when the eye is finally opened.

Do not give sick people fried foods or anything highly seasoned. Avoid hot bread and biscuits and strong tea and coffee.

Bathe the face and hands of a feverish person with warm water that has a bit of common soda dissolved in it. A few drops of alchohol or cologne is often pleasant to use to bathe the sick.

A nurse should use care that no person having wet or even damp clothing should enter the sick room. Never get out of patience with the whims of an invalid, but try to coax and soothe without irritating him.

People who have weak hearts should always have their principal meal in the middle of the day, and with as little water as possible.

Begin life where you are.

Carefully look over what is to be done.

Keep a cool head and cultivate poise.

Go to work earnestly and confidently.

Do as well as you can what lies nearest at hand.

Meet your difficulties and problems calmly and with a belief that if you do your part they will be solved and overcome in the best way.

Do not be overcome by seeming mistakes.

Errors are sometimes very expensive: but then, again, they often save in the long run more than they cost.

Only weak people are cast down by apparent failure and blunders.

Those who win in life's battles are the brave, courageous ones who look upon all experience as being educational.

Sometimes our apparent mistakes help us along more than our apparent successes.

Eggs boiled twenty minutes are more easily digested that if boiled ten. They are dry and mealy, and are readily acted upon by the gastric juice. The yolk of an egg well beaten is a very good substitute for cream in coffee. An egg will season three cups. Hoarseness and tickling in the throat are relieved by a gargle of the white of an egg beaten to a froth with a tumblerful of warm sweetened water. Beat an egg fifteen minutes with a pint of milk and a pint of water, sweeten with granulated sugar, bring to boiling point and when cold use as a drink. It is excellent for a cold.

"Araminta, run over to the next-door neighbor and see if you can't borrow some dishes." "But, mah, we don't need any dishes." "That doesn't make any difference. They've been looking over our furniture, from the wash wringer to the sewing machine. Its about time we took our turn at inspecting their goods and chattels with a view to determining their social status."

"Have you been married long?" asked the lady who was making conversation, of the six-footer.

"Just as long as I am now," he replied.

A HAPPY HOME

Is one where health abounds.
With impure blood there cannot be good health.
With a disordered LIVER there cannot be good blood.

Tutt's Pills

revivify the torpid LIVER and restore its natural action.

A healthy LIVER means pure blood.
Pure blood means health.
Health means happiness.

Take no Substitute. All Druggists.
