Sir

I Rec. your favours of the 4th Inst. & observe the Contents, agreable to Your Orders, have sent the Prisoners of War that were Confined here, off yesterday fortnight, Viz. to Hagers Town & 3 Children which were sick in the Hospital, under the Care of Capt. Furnavell & twenty four men —

you may depend as soon as in my power, I will get a Well in the Fort — I have not as yet Removed the Powder to the Fort, as there is a considerable quantity of Continental, in the same Magazine, & I should be still obliged to keep a Guard in Towne, Mr. Peal who has the Care of the Continental Stores in this place, promises he will remove it tomorrow or Mondays, when I will Remove the powder, & try to get an Acct. of the Stores in this place which will send to you the first Opportunity, I should have Recommended Mr. Finly who is now 3 Lieut. as first in Capt. Doneys Compy. (he is a sensible young man & Understands the Theory of Gunnery well) but dont think he has kept the men under the Subordination he ought to, tho he has taken much more Care & pains latterly than he did at first, & think he will yet make a good Officer, Capt. Doney & myself would be very well Satisfied, to have Mr. Hardy as a first Lieut.
