I also transmit you a return of the Artillery Havalry the former offer themselves Volunteers, It will be a most Distressing thing to their families if they should all be Necessary

permit me to remark that the following Officers will be Necessary to each Regiment, which I believe have not yet been Appointed

One Surgeon
1 Surgeons Mate
1 Adjudant
1 Quarter Master —

And Sir altho the Law is Silent on the Subject yet the Detachment cannot do without a Brigades Quarter Master, Wagon Master & Forage Master, It will also be Necessary Immediatly to direct that the Barracks at Frederick be put in Order to receive the Different Detachments untill the Tents & Camp Equipage shall be prepared If some previous step of this Kinds is not taken I should apprehend that the Men will be discontented and return home —
