Annapolis the 10th april 1779

(62)

Gentlemen

I came down to have the honour of presenting my Compliments to you; in the mean time call for your assistance in my recruiting. Congress having ordered my Legion to Georgia authorize me to the same right of inlisting soldiers, for indemnity or by fines or deportation I'll lose some of my men on the road which I've added to the one I made in the last Campaign said hardly be repaired in the South ward the white people being very scarce there. that granted I should be very much indebted to you would, the capt. signed who I leave behind find the same protection and support which the Council granted to him last year.

I claim Gentlemen your aid and amity; for calling my legion, Maryland, legion I'll endeavour my self to have that name for ever honoured by our friends and respected by our enemies. and that may reach to the glory bellow I and my officers are sworn to

I am Gentlemen with the greatest consideration

your most humble and obedient servant C. Pulaski
