this his Solicitors, to Mr. King) is not left that
be accepted. — I have already taken Measures
to ascertain this — and in a few Days shall be
able to speak positively upon it. — In the
mean Time it continues to be certain that no
Opposition will be given by any of the other
Parties — none of them being aware (so far as
I can discover) of the Views of the British
Government in Relation to the final Disposition
of the Stock as stated in L. Hawkesbury's
Engagement to Mr. King.

In my Letter of the 20th of Sept. to Governor
Mercer I omitted to mention that one of the
Persons who is now a Party in Chancery & will
be a Party to the intended Information, is
stationed in the East Indies (Madras) and
that of course it will require at least two
Years to procure the Execution & Return
of a Commission to take his Answer.
