S.14 Queen's Town 15th March 1781

The Commissioners of the Tax for Queen Ann's County have received your favour dated the 3rd instant respecting the Estates in this County of British Subjects and absentees — We wish to give you the information you request, but not having seen the Law we can't presume to know what constitutes British Subjects & absentees, and of consequence can't say any thing with precision of such Property —

There is a considerable tract of Land commonly known by the Name of My Lord's Manor formerly the Property of Lord Baltimore and lying near Church Hill which we apprehend will come within the description of such Property as you mention —

We are Sir Your most Ob Servants
