were slighter and not so rounded as of yore.

Jack came up softly behind her, crying, gaily:

"I have taken you by surprise, Phillis."

She turned around with a gasp of joy.

"Jack!"

Here among the budding roses they had parted, oh, so long ago! Here among the dying roses they were face to face again.

But what a change!

Phillis saw his face, still handsome, still winning as in the old days, but with lines on it that were not good to see—blase, dissipated; Jack saw a face that made him cry out in pain:

"Oh, Phillis, what has become of all your June rose beauty?"

"Am I so altered dear?" she faltered.

"You are so changed, so pale, so wan, that I should scarcely have known you again. It breaks my heart."

"I have grown old waiting for you, dear Jack, but you will not mind my faded beauty—you will love me the same?"

"Good heavens, Phillis, you do not realize how I prized your beauty, and how different you are now! Why out in California I know a lovely girl, the breathing image of what you used to be—when you were young, you know. "By Jove!" with an uneasy laugh, "if I had not been bound to you, dear, if you had not waited so patiently for me, she would have caught me for sure! But when uncle told me you had refused him for my unworthy self, I knew I ought to come back, I knew——" but the brutally frank explanation died on his lips as she turned to him with her lip curled in pride.

"I knew that you were false long ago by this token," she said, holding out to him the opal ring, its beauty dimmed and lustreless. "Take it and go back to your new love. I forgive you, because I loved you—once."

She heard, without turning her head, the traitor's footsteps rustling the dead leaves on the path as he went away, then put out her hand to pluck a fading rose from the stalk by her side, but a little gust of wind scattered the rose-petals in the air, and in grasping the stem a thorn pierced her soft, white hand. The blood spurted hotly, but she scarcely felt the pain; she was thinking sadly that the frost of time had blighted all her springing hopes till they lay like the seared rose leaves in ruins at her feet.

A Printer Plans Society Which All are Invited to Join.

A public banefactor with a sense of the fitness of things has devised a ritual for a new society. It is as follows:

"Persons wishing to enter a printing office at any time of the year should be governed by these rules: Advance to the inner door and give a distinct rap. The "devil" attends to the alarm. You can give him your name, postoffice address and number of years you are owing for the paper. He will admit you. You will advance to the middle of the room and address the editor with the following countersign: Extend the right hand about two feet from the body with the thumb and index finger clasping a bank bill, which drop into the extended hand of the editor and at the same time saying: "Were you looking for me?" The editor will grasp your hand and the bill and pressing it, say, "Yes! Thanks!"

Why it Was Needed.

"Ma wants five cents' worth uv dog meat."

"So your ma's got a dog, has she?"

"Nope."

"A cat, eh?"

"Nope."

"Hain't got a summer boarder, have ye?"

"Nope."

"Great snakes! what is it she's got then?"

"Oh! ma hain't got nothin'—it's paw. He's got a black eye at th' election."

No man is blind to the faults of his neighbors.

A FLAG ON EVERY SCHOOL HOUSE.

From Grand Army Gazette.

Raise the flag on every school-house,
Let it float upon the breeze,
Sing aloud "The Spangled Banner,"
As it rises o'er the trees.
Tell the children all the story,
On the land and on the sea,
That its pet names are "Old Glory,"
And "The Banner of the Free,"
That its red should e'er remind us
Of the blood by martyrs shed,
That we might live in Freedom's land,
After they were with the dead.
That its white our faith should strengthen.
That the people's cause is just
And no monarch e'er shall rule us
But the God in whom we trust.
That its blue for truth eternal,
Like the azure sky above,
E'er should keep its true and royal
And our nation's honor love.
Its stars shall lighten all the world
And must prove to all who see
That the people can be trusted
With the boon of liberty.
Its stripes mean justice sure to fall
Upon all assailing foes,
It waves proudly and defiant
Against all who oppose.
Float freedom's flag in freedom's breeze,—
Starry banner that we love—
From the prairies to the seaboard,
Northern lake to orange grove.
Raise the flag on every school-house,
Let it float upon the breeze
Tell the children of its triumphs
On the land and on the seas.
Many thousand noble freemen
Gave their lives to prove its worth,
The only flag that despots fear—
Freedom's hope through all the earth.
It knows no sect, no race, no clan,
Schemes and plots it doth defy,
To freedom's storm tossed struggling ship
It is a rainbow in the sky.
Raise it high, mid spire and steeple,
Let it glisten in the sun,
It has no spot of shame to hide
In all its victories won.
Tell the children that its symbol
Is a State for every star.
Tell them its victorious record
In days of peace and cruel war.
Tell them it is theirs to cherish,
That its stars must never set
And in future they'll defend it
If need be with the bayonet.
Keep the flag on every school-house
With your ballots it defend
Learning and Freedom firmly join,
Then our Union ne'er shall end.
Let cheers arise unto the skies,
Like great Niagra's roar.
From the mountains of New England
To Pacific's golden shore.

Measuring and Seasoning.

Here is a list which will be found invaluable by the housewife who pastes it on a card and hangs it up in her pantry. The list does away with the necessity for lumbering up the place with weights and measures:

Four even teaspoonfuls of liquid equal one even tablespoonful.

Three even teaspoonfuls dry material equal one equal tablespoonful.

Sixteen tablespoonfuls liquid equal one cupful.

Twelve tablespoonfuls dry material equal one cupful.

Two cupfuls equal one pint.

Four cupfuls equal one quart.

Four cupfuls flour equal one quart or one pound.

Two cupfuls solid butter equal one pound.

Two cupfuls granulated sugar equal one pound.

Two and one-half cupfuls powdered sugar equal one pound.

One pint of milk or water equals one pound.

One dozen eggs should weigh 1½ pounds.

Skim milk is heavier than whole milk, and cream is lighter than either, while pure milk is 3 per cent heavier than water.

The following table of proportion is also valuable: Use

One teaspoonful of soda to one cupful molasses.

One teaspoonful of soda to one pint sour milk.

Three teaspoonfuls baking powder to one quart of flour.

One-half cupful yeast or one-quarter cake of compressed yeast to one pint liquid.

One teaspoonful extract to one loaf of plain cake.

One teaspoonful salt to one quart soup.

One scant cupful of liquid to two full cupfuls of flour for muffins.

One scant cupful of liquid to one full cupful of flour for batters.

One quart of water to each pound of meat and bone for soup stock.

Four peppercorns, four cloves, one teaspoonful mixed herbs for each quart of water for soup stock.

Hot Weather Counsel.

Don't hurry and don't worry, no matter if the quicksilver is beating records with its high jumps. Be calm, should it be impossible to be cool. Use plenty of water on your head, your wrists, your ankles and your feet, provided you can beg, borrow or steal the time for plentiful lavations and ablutions, and, above all, don't fret and don't get excited. Then, with good luck, you may possibly outlive dozens of fiery summers.

"Whenevah Ah sees er man pastin' up circus signs," said Charcoal Eph, as he passed his plate for more chicken, "Ah jess natchully cyarn't help thinkin' how rich he'd git ef he lied datterway on his own account, Mistah Jackson."

Some people complain that it's hard to be poor, and to others its dead easy.

Wall Paper! Wall Paper!

I wish to call the attention of my friends and the public in general to the fact that I now am ready to show one of the

Finest and Cheapest Lines of WALL PAPER

ever exhibited in this county, bought direct from the factory, in full bundle lots, so you get it only from second hands, no two or three profits coming off it. Of course the consumer pays them all. Sam Jones says it takes a paper pup nine days to get his eyes open. I have known some people to get their's open in fifteen minutes in a wall paper deal. They thought it was two pieces instead of one, and the border they did not understand, &c. That is always their plea. Remember I am the only paper hanger in the county that carries a stock and don't have the expense of running a store therefore I have no opposition. Is you think I can't save you money, come and see me and bring size of your room, or send size by mail and I will tell you what your job will cost, and send samples and convince you that Gladhill's is the place to save twenty-five cents on a dollar on all Wall Papers.

FACTS

Are more stubborn than figures—Buy your FERTILIZERS only from responsible dealers, who guarantee you QUANTITY and QUALITY.

TALK IS CHEAP

Do not be deceived. Nothing is more susceptible to adulteration than Fertilizers, therefore give your orders only to LEGITIMATE DEALERS who pay Licenses and Taxes, thereby lessening your burden, and then only where analysis and weight is guaranteed under forfeiture of bill sold. Only the dealers who are willing to do this are worthy of your trade.

All our brands of FERTILIZERS have Pure Bone Base, the fertilizing properties will not give out during the growing season, as many quick acting articles do, but will mature the crop and leave the soil in an improved condition. All our brands are put up in 167 lb. bags for convenience in handling, unless otherwise ordered.

DISSOLVED S. C. ROCK.

We offer this as a strictly high-grade Rock—guaranteeing 14 to 16 per cent. Available Phos. Acid. The State chemist gives us a commercial value of $18.42 per ton—the highest of any Rock sold in the state. Our sales last year were unprecedented. Can furnish you with the strongest testimonials from the leading farmers of Carroll and Howard counties. Its drilling condition is perfect.

Price, $9.50 Per Ton.

"Special Mixture" for Wheat and Grass.

We ask your special attention to this mixture. This is our sixth season to offer this brand, with increased sales yearly. The cost per acre being so little above S. C. Rock, many farmers are using it instead of Rock, claiming they get a fourth larger yield, and that their land is left in much better condition. We guarantee every ton to contain 800 pound Pure Animal Bone.

Being composed of Dissolved and Raw Material, it is a great favorite, on account of its lasting properties; furnishing an abundance of nourishment and sustenance the time it enters the soil. When your grain is heading, the raw material has become dissolved, and its effects are felt just at the season it is wanted. It is in splendid drilling condition, and highly recommended.

Price, $16.00 Per Ton.

"Monacacy Special."

To those who want a cheaper goods than our "WHEAT and GRASS MIXTURE" we offer "Monacacy Special." This brand, too, has Animal Bone Base, though does not run as high in Ammonia.

Price, $14.00 Per Ton.

Martin's Dissolved Slaughter House Bone.

It is richer in Soluble Phosphoric Acid and Ammonia than any similar article in the market.

Owing to its great solubility, it is easily assimilated and supplies an abundance of nourishment and sustenance for the full development of the growing crops.

It is more reliable in action and more lasting in its effects than Peruvian Guano, yielding a healthful stimulation without any injurious after effects.

Price, $24.00 Per Ton.

Martin's Fine Ground Bone.

Made only of Slaughter House Bones. Contains a larger percentage of Ammonia and Bone Phosphate Lime than any other brand in the market.

We do not steam or bake our bones, or otherwise treat them so as to destroy the animal matter, which is rich in ammonia. Purity guaranteed.

Price, $26.00 Per Ton.

Bone and Potash Mixtures, 2-10 and 3-12 Goods.

Muriate of Potash, Tankage. Remember all our goods are guaranteed under forfeiture of bill sold.
