April 26. 1799. —

The auditor meets in the auditors office agreeably to notice given to the parties pursuant to the agreement entered into by their Counsel for the purpose of receiving further Testimony in the said cause the Complainant and Defendt both attended. —

Allen Dorsey of Baltimore county aged about 32 years being produced sworn and examined on behalf of the Complainant deposeth and saith. to the first Interrogatory answers that he is acquainted with the ferry formerly kept over patapsco river by the Complainant & defendant that he has known the same about fifteen or sixteen years but does not know the exact time when the said ferry was moved to the place where it is now kept and that he has frequently crossed the said ferry for ten or twelve years or more. he thinks ever since he has lived in the neighbourhood which is about twenty years. does not recollect whether the ferry was kept there at the time he first went to live in the neighbourhood. but thinks it was kept at Elk ridge landing by Mr. Robert Long who married the widow of the Complainant & Defendants father who had the possession at that time. —

To the 2d Interr. answers that he does know the ferry now kept & claimed by the defendant over the same river but cannot say exactly what distance the said ferry is from the one formerly kept by the

Complainant and defendant it may be 20. 30 or 40 yards lower down the river as he has never even guessed at the distance. —

To the 3d Interr. answers that he is acquainted with the roads leading to and from the present ferry that they are the same roads which led to and from the former ferry that there is no other road except the one which the defendant has made to go to and from the ferry he now keeps into the original roads which led to and from the ferry which was kept by the Complainant & defendant. —

To the 4th Interr. answers that the ferry now kept by the defendant, occupies the same ground and to and from the same places as the former ferry did as this deponent believes. — To the 5th Intly answers that he supposes if the two ferries were kept at the same time the profits of each would be certainly less. —

To the 6th Interr. answers that he does not think it does lead from any custom or road different from what the former ferry did. —

To the 7th answers that it does not to his knowledge. — To the 8th Intly answers that he thinks it does. — does not know of any person being obliged to cross the said river at the former ferry but would cross at the present ferry now crossing at the present ferry but would cross at the old ferry in case there was one ferry kept. —

To the 9th answers that he thinks one ferry wholly sufficient for the customs of the place. — Questions by the defendant do you know whether the road leading to the ferry from Baltimore is a public or private road. — (The deponent answers that he does not know whether it is a public or private road, but that the public makes use of it, that the road runs on the right hand side of the branch after crossing the said branch down to the ferry " who owns the present ferry boat & who built it. " — (The deponent answers that he thinks the defendant owns the ferry boat & has the same built at his own expence and that the ferry house and rope belongs to the defendant and the deponent has understood that the defendant purchased two acres of land on the opposite side of the river in Anne Arundel county for a landing to the present ferry. —

Isaac Dorsey of anne arundel county aged about 36 years being produced sworn & examined on behalf of the Complainant deposeth and saith. —
