25th He wished to secure to Captain Frazier that land which Charles Powell had deeded to Thomas McKeel. He Charles said he understood he could not dock the entail of part of the land unless he docked the whole and that was the reason he wished to give a deed to William Lecompte for the whole This deponent observed to Charles that Frazier was right as he did not wish to risk his land in the hands of William Lecompte to get a deed for his land before the other deeds were executed. The answer of Charles was that he could not give him a deed then for he wanted to give him such a deed as Charles Powell gave to Thomas McKeel.

26th He has heard that he attempted to influence Charles but heard nothing about John Bering Croft examined he said he had it from the Defendant and his wife and has often heard it talked of among the neighbours but does not particularly remember whom.

27th This deponent upon recollection says that Charles Lecompte in the course of the conversation in the yard said that William Lecompte informed him Charles that he could not dock the entail of part of his land without docking the whole and that he William was informed so by Counsel.

25th answered in the affirmative.

26th He has often heard William was with them when they were making their wills he heard Thomas Buckles, Jack Frazier and his wife Betsy say he was the only man there when Charles was making his will and that they believe William put more in the will than Charles intended that he wrote some thing in the will but they could not tell what as they had no learning Jack Frazier and his wife were witnesses to the will.

27 Charles Lecompte came to William Palmers shop and he said that John McKeel was going to sell his land and said if this deponent would tell Charles and this deponent would persuade Captain Frazier to buy it and if he will buy it at my decease I will give him the remainder of Spocott. He never intended his brother William or any of his children to have Spocott as he intended to give it to his grand daughter Betsy and Captain Frazier. He Captain Frazier had done a good deal for him and he intended to give it to him graciously from the rest of the Land for it was given to him Charles by his grand mother and he never intended it to be divided. Bering Croft examined he said this conversation passed before and after Captain Frazier bought McKeel land and in the same year and he said he would give a deed to no other man but Captain Frazier for the Land.

William + his mark Frazier
