Measuring Contests.

Measuring contests are just as much fun as weighing contests and a good deal easier managed. Procure an accurate yard stick, and, if possible, a reeled tape line. Then, if you do not wish the competition to be severe, fasten a foot rule upon the wall so that every one can see it. Next hand sheets of paper and pencils to the contestants.

Begin with the longer distances, and do not divide inches with these. If the door for instance, is 84⅞ inches high, call it 85, if 84¼, call it 84. As the different objects, are called out each contestant judges its length or height, as the case may be, and jots it down upon a slip of paper. Ask for the length of the room, the width, the height, the height of the doors and windows, &c., all of which may be reckoned in either feet or inches, according as one is accustomed, but must be put down in inches, for convenience on paper.

Coming to smaller objects, it will be well to allow fractions of an inch to be included, at least quarters, so that a bottle may be estimated to be 8¼ inches high and a book 5½. The following list of objects is merely suggestive:

A teapot,
A candle in the candlestick,
A bottle,
Different sized books,
A glass and a tumbler,
A cup,
A lead pencil,
The diameter of a plate,
Pussy's height,
A thimble.
A spoon,
A knife,
A match,
A top hat.

When the answers are all written down and the slips signed and collected, begin the measuring. Two, at least, in the above list will prove very misleading—namely, the teacup and the top hat. Even simpler objects, such as the match and the leadpencil, will cause considerable trouble, and and the great difference in some of the guesses will give endless amusement.

Let there be prizes for the one who guesses the greatest number correctly. Second and booby prizes may be added if desired.

Wall Paper!
Wall Paper!

I wish to call the attention of my friends and the public in general to the fact that I now am ready to show one of the

Finest and Cheapest Lines of
WALL PAPER

ever exhibited in this county, bought direct from the factory, in full bundle lots, so you get it only from second hands, no two or three profits coming off it. Of course the consumer pays them all. Sam Jones says it takes a pointer pup nine days to get his eyes open. I have known some people to get their's open in fifteen minutes in a wall paper deal. They thought it was two pieces instead of one, and the border they did not understand, &c. That is always their plea. Remember I am the only paper hanger in the county that carries a stock and don't have the expense of running a store therefore I have no opposition. Is you think I can't save you money, come and see me and bring size of your room, or send size by mail and I will tell you what your job will cost, and send samples and convince you that Gladhill's is the place to save twenty-five cents on a dollar on all Wall Papers.

Why Not Cure Your Cough or Cold?

WESTMINSTER, April 10th, 1899.

MR. JOS. B. BOYLE:

Dear Sir:—For many years I have suffered intensely, on taking cold, from a very troublesome cough, for which I have used a number of various remedies, and obtained but TEMPORARY RELIEF. During the past Spring I was again troubled with the same cough, and through a friend was induced to try YOUR Pectoral Syrup, which not only gave almost INSTANT RELIEF, but a PERMANENT CURE. It gives me great pleasure to say that I believe it to be the best remedy I ever used for the purpose for which it is recommended. Hoping that any person afflicted as I was may be fortunate enough to give it a trial, I am, Truly yours,

EDWARD LYNCH.
