Republican Ticket.

For President,
THEODORE ROOSEVELT,
of New York.

For Vice-President,
CHARLES W. FAIRBANKS,
of Indiana.

For Congress,
ROBERT GARRETT,
OF BALTIMORE COUNTY.

Mr. Walter R. Rudy, chairman of the Republican County Central Committee, has opened headquarters, for the Republicans of the county, in a room in the second story of the Wantz Building, near the railroad, in this city. Mr. Edward S. Shriver, assistant secretary of the committee, is in charge and will be pleased to have all Republicans call upon him at the headquarters whenever convenient or in need of information in regard to the campaign. The room is reached by the stairway leading to Masonic Hall.

Don't fail to register on Tuesday next, or, if you have removed from one precinct or district to another, be sure to get a transfer from the registrars. Don't wait till the second sitting, but attend to the matter on Tuesday, 4th inst.

The threatened collapse of Bryan's lung is looked upon as a valuable asset by the New York Democracy.

The Democratic party wants the country to take its protection in homeopathic doses, which is equivalent to prescribing panic for hard times.

It seems like a dream, but was not something said a short time ago about the price of silver regulating the price of wheat?

The South owes its phenomenal prosperity to Republican policies, because the party legislates for the whole country and recognizes no section or class.

It is said that Tom Taggart is looking careworn. Perhaps he is trying to get those good Democrats, Cleveland and Bryan, to speak from the same platform.

Parker voted twice for William J. Bryan. The only way for the sage of Lincoln to return the compliment is to vote twice next November, for he will never have another opportunity.

Next November Judge Parker will feel that the bird he had in his hand was worth more than the great big eagle the convention assured him was roosting in the bushes.

Ireland is a good example of what free trade as preached by England can do for a country. Her industries have been destroyed, her population has decreased, and she now buys her manufactured goods from other lands.

Betting on the election in New York City indicates the confidence of those willing to risk their money on the result in the election of Roosevelt. Much money at two to one has been risked and is offered that the Republican ticket will be successful.

"Why," said Malvolio, "some are born great, some achieve greatness and some have greatness thrust upon them." It is not difficult to decide in which of these classes Judge Alton B. Parker is to be placed. He was not born great and certainly has not achieved greatness by any remarkable act or decision in his judicial career. As the protege and friend of David B. Hill, one of the most corrupt politicians in the country, he has been thrust into greatness far beyond his merit, if his past career can be fairly taken as a criterion of his future. There are few localities in the country that cannot boast of men of equal or greater ability than he.

United States Senator George F. Hoar, of Massachusetts, died at his home in Worcester, in that State, yesterday morning, aged 78 years, 1 month. Senator Hoar's public services cover a period of over fifty years. He was elected a member of the Massachusetts House of Representatives in 1853. In 1868 he was elected to the Forty-first Congress and was re-elected in 1870, 1872 and 1874, but declined a renomination in 1876. In 1877 he was elected United States Senator and has served continuously in that body ever since. He was a man of marked ability and uncompromising integrity. He was a pronounced Republican, but did not hesitate to dissent from any action of his party which did not meet his approbation. He was respected by men of all parties.

The father of a young Republican in this county who will not attain his majority until after the last sitting of the registrars, but will be of age before election day, inquired of the editor of the SENTINEL, a few days ago, whether the young man is entitled to be registered, and stated, at the same time, that some persons had advised him that he is not and that he might get into trouble by attempting to have his name placed on the list of registered voters. What the purpose of such advice was we are unable to say, but there is not a particle of doubt about the young man's right to register and vote. There may be others like him, in doubt about their rights in such a case. Let it be distinctly understood that any male citizen who will attain his majority at any time up to election day, is entitled to register and vote. Of this there is not the shadow of a doubt, and no young man coming under this head should hesitate a moment to appear before the registrars and have his name placed on the list of qualified voters.

Don't forget to register next Tuesday.

DON'T FORGET REGISTRATION DATES.

Two dates are set for the registration of voters—Tuesday next, October 4th, and the following Tuesday, October 11th. All Republicans entitled to register should be sure to do so. The election in November will be a most important one, vitally affecting the interests of the country. The election of a Democratic President on a platform declaring protection robbery would mean disaster to the business and industrial interests of the country. Maryland, with her diversified products, would suffer severely from a change in the economic policy of the country and should be placed in the Republican column. Every Republican vote in the State should be cast for Roosevelt and Fairbanks. To do this the voters must be registered. Let every Republican consider himself a committee of one to see that no party friend, entitled to register, shall be left off the list.

ONLY ONE X TO VOTE FOR PRESIDENT.

This is the opinion of Attorney General Bryan, of this State, and as such must govern election officers in counting the ballots cast at the election in November. The official ballot will be printed with a square to the right of the names of the candidates for President and Vice-President, and General Bryan says that a X in that square will count a vote for all the candidates for presidential electors of the party for whom the ballot shall be marked. There will be a square after the name of each electoral candidate but Mr. Bryan says that it will not be necessary to put a X in such square.

The Democratic bosses, whose purpose it is to make voting as difficult as possible, are very much put out with Mr. Bryan's interpretation of the law on the subject, and are endeavoring to invent some method by which the opinion of the Attorney General may be set aside and the voter required to make a mark in the square to the right of the name of every candidate for elector for whom he desires to vote. It is difficult to see how the official opinion of ths chief law officer of the State, whose duty it is to interpret the law in the premises, can be nullified, and as will be seen by an article from the *Baltimore American*, in another column, Chairman Hanna, of the Republican State Central Committee, has decided to advise Republican voters to make but one mark for the candidates for President and Vice-President. Of course another mark for the choice of the voter for Congressman must be made to the right of the candidate for that office.

JUDGE PARKER'S LETTER OF ACCEPTANCE.

Judge Alton B. Parker' letter of acceptance of the Democratic nomination for President was made public on Monday and is a somewhat voluminous document, treating of various subjects at considerable length.

Of these, the tariff, the Philippine Islands and the Panama canal may be regarded as the most important. The tariff question is discussed at some length and the stale platitudes of the anti-protectionists repeated in much the same form and phraseology as have been employed by free traders generally, from year to year. Judge Parker's conclusion, after giving expression to his hostility to the Dingley tariff law, is a matter of great concern to the country. He does not favor heroic and consistent treatment of what he claims is a great wrong upon the people, but favors a gradual revision and reduction of tariff duties. He deals with the subject in a general way and makes no specific allegations of inequalities in the tariff schedules, hence it may be inferred that he is in favor of a general reduction in the rates. He does not appear to have the courage of his convictions, as was the case with Mr. Cleveland, and while condemning the protective system finds it necessary to qualify the Democratic purpose to destroy it, by proposing that that only be done gradually.

It is to be said of this plan that nothing could be more dangerous or detrimental to the business and industrial interests of the country. To drag along for several years tinkering at the tariff law, with nothing more definite than a declaration that reductions must be made gradually, would simply be to keep all manufacturing and other business enterprises unsettled; to frighten capital into withdrawal from such enterprises and to deter it from engaging in new efforts to develop and enlarge the trade and manufactures of the country. If Judge Parker has correctly expressed the tariff policy of the Democratic party, heaven save the country in the event of a Democratic victory.

Realizing that it would cover the country with shame and ignominy to at once set up an independent government in the Philippines and leave the Filipinos to work out the scheme of independence as has been done in Cuba, Judge Parker condemns the Republican policy in dealing with the question thus far, but, as in his free trade, anti-protection notions, qualifies his advocacy of such independence for our Eastern Possessions, by suggesting that if it cannot be prudently granted now, the Filipinos shall be promised that they shall have it whenever they shall become capable of receiving it. This is sufficiently indefinite, to be sure, but it gives Judge Parker some sort of pretext for differing with and condemning the policy of the Republicans, who are doing everything in their power to fit the Filipinos for self-government and have given greater blessings to the inhabitants of the Philippines than they have ever heretofore experienced.

About the Panama canal business Judge Parker reiterates the criticism of his party associates upon the proceedings which placed this country in a position to build that great waterway. He charges that a friendly nation was wronged by this country for the purpose of gaining this desirable franchise, but fails, as all other Democrats have failed, who have made that charge, to sustain it by a particle of proof. The charge is wholly an unsubstantiated assumption, but in making it and then agreeing that the country should take advantage of it, Judge Parker approves the appropriation of goods which he alleges were stolen.

Of course partisan Democrats pretend great admiration for the letter of acceptance of their candidate for the Presidency, but they can scarcely fail to see that it will not do to analyze it too closely if even they are to give it unqualified approval.

James Jeffrey Roche, editor of the Boston Pilot, a very influential journal with Irishmen, is authority for the statement that President Roosevelt will get a large Irish vote in this campaign. He and his paper have come over to the Republicans for the first time, and it is predicted that thousands all over the country will follow them.

HOW TO MARK THE BALLOT.

"Republican voters in Maryland will be instructed to place only two marks on the ballot, one for president and one for the congressional candidate. This marking will be in accordance with the instructions of Attorney General Bryan, which have the full effect of law."

This statement has been made, says the *Baltimore American*, by Chairman John B. Hanna, of the Republican State Central Committee, and was called forth by the controversy which has arisen regarding the opinion of Attorney General Bryan, which is embraced in instructions to election judges, that it is necessary to place only one mark opposite the name of the candidate for president in order to vote for the electors. Mr. Bryan has also said that the voter has the option of placing his mark after the names of the several candidates for electors for whom he desires to vote, or only one mark opposite the name of the candidate of his choice for president.

Mr. Hanna says that all sample ballots issued by the state committee for the instruction of voters will contain only two marks, one opposite the name of the Republican candidate for Congress.

Hooted From the Platform.

Yesterday's Baltimore Evening *News* says: "A dispatch from New York states that Mr. J. Harrison Powers of Carroll county, Maryland, was hooted from the platform by Republicans at the Otsego County Fair yesterday afternoon. Mr. Powers had been invited to speak on purely agricultural subjects, but he developed a political strain in his remarks and began to score President Roosevelt. Otsego is strongly Republican, and Mr. Powers was compelled to retire. He afterward said that his feelings ran away with his good sense." It might pertinently be asked whether the matter of good sense is the only thing involved in this case?

The War in Manchuria.

Port Arthur still holds out against the assaults of the Japanese, but the garrison and inhabitants are said to be reduced to severe straits. The armies operating again Gen. Kuropatkin are still on the offensive and have taken several mountain passes after severe fighting, but there has been no general battle since the retreat of the Russians from Liaoyang. Kuropatkin's army, it is said, is to be increased to 700,000 men and he will probably endeavor to avoid a general engagement until heavily reinforced. It is reported that the Japanese armies operating against him are being increased by the addition of 200,000 men, and it is possible that he may be crushed before material aid can reach him over the 5000 miles between him and St. Petersburg.

Fatal Railroad Collision.

A collision between two passenger trains on the Southern Railway, between Knoxville and Bristol, Tenn., on Saturday morning, resulted in the death of 66 persons, while about 150 were more or less injured, some of them fatally. The trains were running at the rate of 30 to 40 miles per hour when the collision occurred. The collision occurred near a place called New Market, whither a number of persons were going to attend the funeral of W. R. King. James King, a brother of the deceased, who was among them, was killed. Congressman Gibson, of Knoxville, was among the injured.

The cause of the collision, it is said, was a misunderstanding of his orders by one of the conductors.

The floor over a cesspool at a school at Pleasant Ridge, seven miles north of Cincinnati, Ohio, gave way while it was crowded with children, on Friday last, carrying numbers of the little ones into the pit beneath. Nine little girls were suffocated and many others were rescued with difficulty and in a fainting condition. There must have been culpable neglect on the part of somebody whose duty it was to see that the flooring was safe.

The engine of a Baltimore and Ohio Railroad freight train ran into a wagon loaded with dynamite, at North Branch, Allegany county, on Friday afternoon last, causing an explosion which killed two of the railroad employees and injured eight or ten other persons. The railroad tower and a number of residences and other buildings in the town were wrecked.

Rev. Dr. Conrad Clever, formerly of Baltimore, was formally installed pastor of Christ's Reformed Church, Hagerstown, on Wednesday evening, September 28. Rev. Frederick W. Bald, of Clearspring, preached the installation sermon and was assisted at the service by Rev. Dr. J. Spangler Kieffer, of Hagerstown, and Rev. J. B. Stonesifer, of Carroll Place, near this city.

Cover and others are complainants, and Anna Margaret Cover and another are defendants, and known as No. 4176 Equity, the undersigned, trustees appointed by said decree, will offer at Public Sale, on the premises, on

SATURDAY, OCTOBER 15th, 1904, at 1 o'clock P. M., the Home Farm upon which Peter H. Cover died, containing

196 ACRES, 2 ROODS OF LAND, more or less, and situated in Carroll county Maryland, on the Old Buffalo road, about 2½ miles from New Windsor, Carroll county Md., and adjoining the lands of Walter Engle, Milton Myers, and the property of the late Peter H. Cover known as the "Snader Farm." This property is improved by an excellent Brick and Weatherboarded Dwelling House, a large Brick Bank Barn, Corn Cribs, Wood Shed, Ice House, Dairy, Tool Shed, 3 Hay Barracks, and all other usual outbuildings for a first-class farm. There is a spring of never failing water at the dairy, a pump at the barn and a cistern at the house. Ten Acres are in good heavy Oak and Hickory Timber, and the rest is under a good state of cultivation, with a due proportion of Meadow Land. The farm is under good fencing, and is well watered and has a fine Apple Orchard, and is made up of limestone land. Besides being one of the most valuable farms in the county this property possesses historic interest and is known as the "Strawbridge Farm," because of its being the site of the First Methodist Church built by Strawbridge in this country.
