FRIDAY, APRIL 28, 1905.

The stupendous defalcation of President Bigelow, of the First National Bank of Milwaukee, is calculated to bring the efficiency of the government bank examining system into question. It is remarkable that Mr. Bigelow got away with a million and a half of the bank's funds before his detection. Of course the books were falsified, but if that can be done and discovery avoided, for so long a time, little protection is afforded by the work of the bank examiners. Possibly, like many other people, examiners may be inclined to take many things for granted and at times fail to make the searching investigations essential to the demonstration of the real conditions of the banking institutions they are set to examine.

Democrats who cherish a hope of success at the next national election have very little ground upon which to base it. Certainly the prospect—if there be any prospect at all of such a result—is so faint that it would take a microscope of many diameters to discover it. The truth is that the Democratic party is hopelessly divided on national questions. Mr. Bryan leads the western wing, which is more widely at variance with the eastern Democrats than the latter are with the Republicans. Mr. Cleveland may possibly be fairly considered the leader of the eastern wing of the party, but for a time Judge Parker held that position and recently he and Mr. Bryan made speeches on the same day, defining what, in the opinion of each, constitutes Democracy. There was no agreement whatever in the views expressed by these gentlemen, and evidently the differences existing between them are irreconcilable.

The decline in the price of wheat, in the Chicago and New York markets, from the highest to the lowest quotations for the week ended on Wednesday, was 30 cents per bushel. The Gates corner was, doubtless, the cause of an abnormal increase, and when that collapsed the reaction carried down the price below normal figures. In the Baltimore market the highest quotation on Wednesday was 95 cents. Such extreme fluctuations are usually the result of speculation. Whether we shall have dollar wheat again, shortly, remains to be seen, some decline, in this case, having probably been due to the prospect of a large crop this season, which, however, may not be realized, as there are many contingencies to be encountered before harvest time. The market was further unsettled yesterday and spot wheat declined in Baltimore to 92½, with May options at about the same figure.

THE PRESIDENT'S HUNTING TRIP.

President Roosevelt has had to "rough it" on his hunting trip to the mountains of Colorado in search of big game, but he appears to be enjoying every minute of the time and to be adding numerous trophies of his skill to his previous record. A dispatch from Glenwood Springs, Col., on Tuesday, says:

President Roosevelt's hunting trip has been crowned with success far beyond his expectations or of those of the most sanguine of his guides. Three bears were killed by the hunting party yesterday and two on Monday, one by President Roosevelt and one by Dr. Lambert. P. B. Stewart, of Colorado Springs, one of the President's hunting companions, accompanied by Courier Chapman, arrived here last night and told about the hunt. The killing of the three bears was telephoned to them, and they understood that President Roosevelt brought down two of them, but the details are lacking.

The party is almost snowbound in its present location, and no attempt will be made to cross the divide. Fifteen feet of snow is on the ground on the other side, and any effort to reach Redstone would be futile. The hunters are satisfied, however, for they have reached the center of what the guides say is the best bear country in Colorado. Mr. Stewart says the party is in the best of health.

The bear killed by the President Monday was of the brown variety, not so heavy, but furnishing a much finer pelt than the first animal killed. One of the bears killed yesterday is said to be a grizzly, but this cannot be verified.

It was within an area of seven miles that all five of the bears were killed. This spot is about 16 or 18 miles from camp, and every animal gave the dogs and hunters a long chase. All of them treed, which enabled the hunters to kill them without further accident to the dogs. Thus far one dog has been killed. It was killed by the first bear shot.

LARGE BANK DEFALCATION.

Perhaps the most extensive bank defalcation in the history of this country came to light a few days ago in Milwaukee, Wis., when it was discovered that Frank G. Bigelow, president of the First National Bank of that city, had misappropriated about $1,500,000 of the bank's funds. The money was wasted in speculation. Large as is the sum the stability of the bank will not be affected by its loss, which will be made good by a number of the stockholders who have agreed to advance an amount in excess of that embezzled. The misappropriation of the funds was concealed for some time by the falsification of the books of the bank. In this proceeding Mr. Bigelow says he was assisted by the assistant cashier.

The method adopted was an old one. Collection accounts were manipulated 40 or even 50 per cent., to make it appear that the reserve fund was intact, and the amount of the increased collection fund was diverted to special stock operations. The reserve maintained in Eastern banks was tampered with, the books of the First National being fixed so that the reserve appeared to be larger by several hundred thousand dollars than it really was. These and other methods were pursued by Bigelow in securing money from the bank.

Mr. Bigelow stood very high in the banking world and was at one time president of the American Bankers' Association. He has been arrested and will be tried for the crime.

The Union Bridge *Pilot*, published at Union Bridge, has gone into the hands of a stock company which will hereafter be known as "The Pilot Publishing Company, of Carroll County," and has been incorporated under the General Laws of the State of Maryland, for the purpose of carrying on and conducting the business of printing, publishing and selling books, pamphlets, and newspapers and the general business of job printing. The incorporators of said company are John N. Weaver, John C. Buckey, Edward O. Cash, George O. Brilhart and John R. Galt.

Eighteen of the twenty-three counties of this state, have availed themselves of the State's offer to pay half the expenses of improving their roads.

The Russo-Japanese War

NO NAVAL BATTLE YET.

Russia's Internal Affairs.

The date of the pending naval battle between the squadrons commanded, respectively, by Admirals Togo and Rojestvensky, seems to hinge upon the arrival of Russian reinforcements under Admiral Nebogatoff.

A private telegram received at Tsingtau, China, states these reinforcements already are in touch, but, according to St. Petersburg estimates, it will be impossible to form a junction before May 5.

While Governor-General Trepoff, of St. Petersburg, declares emphatically there will be no lawless demonstrations at Easter time, (which is yet to come in Russia) the people of that and other cities are in a state of fear, and many are leaving for neighboring resorts.

General Kozloff, ex-Chief of Police of Moscow and former terror of the Nihilists, has been appointed Governor-General of Moscow, an act which Liberals say leads them seriously to doubt the sincerity of the Czar's promises.

Charles M. Schwab, in an interview, stated he believes the Czar intends in good faith to carry out promised reforms, and that talk of a revolution is nonsense.

Persons living near the Government alcohol shops at Warsaw have been anoymously warned to leave before May 1 as the shops, it is said, are to be blown up.

An Unnatural Mother.

A dispatch from Richmond, Va., yesterday, to the Baltimore *Sun*, tells the following story of an unnatural mother:

"In Manchester Mrs. Shepherd K. Smith is under arrest on suspicion of having beaten to death her little son Ralph, who was little more than 5 years old. The woman, who is 32 years old and of intelligent appearance, said today that she was innocent of the crime. At the coroner's inquest testimony was adduced to show that both the woman and her husband were accustomed to beat the child cruelly. Mrs. Bertha J. Crostic, a neighbor, told the coroner that last night she heard someone was dying and went to the Smith house. There she found little Ralph lying naked and dead in the middle of the floor. The mother, she said, picked up the body and threw it aside as though it were a log. She admitted that she had punished the child for disobedience, using a razor strop."

An inquest was held over the remains of the child and the jury rendered a verdict charging the mother with murder and the husband as accessory to the crime.

Four persons were killed as the result of an interruption of the proceedings of a Prohibition meeting at Hempstead, Texas, on Monday night. One of the victims was Hon. John M. Pinckney, member of Congress from the Eighth district of Texas. The other three were Thomas Pinckney, a brother of the Congressman; Capt. H. M. Brown and John E. Mills. The trouble was begun by Captain Brown, a strong anti-Prohibitionist, who, in an intoxicated condition, attempted to address the meeting and used language offensive to the ladies present. Rollan Brown, a son of the captain, is charged with having fired the shot which killed Congressman Pinckney. On the 20th inst. an election was held in Waller county, of which Hempstead is the county seat, and the Prohibitionists were successful. The Pinckneys were affiliated with them in the victory, and apparently incurred the enmity of Brown by their action. In addition to the killed several persons were wounded.

Rev. Dr. K. O. Spessard, formerly of Union Bridge, performed the marriage ceremony at the wedding of Miss Mary Elizabeth Fitz, daughter of Mr. John Fitz, of Hanover, Pa., and Rev. John Hamilton Smith, son of Mrs. John Smith, of Baltimore, at Emmanuel Reformed Church, Hanover, on Thursday. Dr. Spessard is now pastor of the Reformed Church, at Mifflinburg, Pa. The groom is pastor of the Reformed Church of the Redeemer, at Littlestown, Pa.

The finding and identification of the remains of John Paul Jones, the illustrious naval officer who first won renown for America on the seas, has led to an animated discussion as to where his body should find its last resting place in this country, several cities claiming that distinction. Annapolis has been mentioned among others, and would seem to be the most appropriate place, the Naval Academy of the United States being located there.

Edward Faulders, an aged man of Myersville, Frederick county, who wandered from his home on Saturday, April 15th, was found five days later in a thicket near Boonsboro in a semi-conscious state. He was so weak he could scarcely stand. He was taken home, where his wife was overjoyed at his return. She had been searching for him from the time of his disappearance.

The Great Council of Maryland, Improved Order of Red Men, held its annual meeting in Pythian Castle Hall, Crisfield, Wednesday and Thursday of this week. Wednesday afternoon the members of the order paraded the streets of the town in Indian costume and attracted much attention. Chief Robert R. Rinker, of Baltimore, was marshal of the parade, which drew a large crowd to Crisfield.

Mr. J. Leonidas Giles, a prominent young business man of Reisterstown, and Miss Lucy Ellen Marshall, daughter of Mr. and Mrs. Charles E. Marshall, of near Owings Mills, were married at 8 o'clock last Wednesday evening. The ceremony was performed at the home of the bride by Rev. W. H. Best, of Reisterstown.

A gift of $10,000,000 by Andrew Carnegie to provide annuities for college professors who are not able to continue in active service has been announced by Frank A. Vanderlip, vice-president of the National City Bank, of New York.

Mrs. Thomas L. Moore, daughter-in-law of Hon. Joseph T. Moore, of Sandy Spring, died a few days ago at Los Angeles, Cal She and her husband were on their way to Honolulu, but Mrs. Moore was taken suddenly ill and died.

Letter to Raymond Bankard

WESTMINSTER, MD.

Dear Sir: Here's something every painter and builder ought to know.

Mr J Hall, Sheffield, Pa, painted two houses, 5 years ago, lead-and oil; took 40 gallons. Last year, he painted Devoe bought 40 gallons; had 10 left.

He is one of thousands. The knowledge is getting about pretty generally, that Devoe goes further than anything else.

Have you found it out in your own experience?

Suppose a job amounts to 10,000 square feet; how much less Devoe could you buy?

Is it as easy to paint? Does it cost any more or less to put on by the gallon than anything else? how much?

If it costs no more to put on Devoe by the gallon, it costs less by the foot, you know; for the gallon does more feet. How much less, do you find it for wages?

Lasts, say, twice as long; that is the owner's gain; but perhaps you reckon it yours; some do. The time, when that comes in, is when he gives out the next job.

Who gets it? Yours truly
