Our correspondents in the eastern section of this county refer to a large balloon which passed over that portion of the county on Tuesday afternoon. It was the large army balloon, released at Washington. Its general course was slightly northeast and it descended some distance beyond Harrisburg, Pa. The line over which it floated in this county seems to be a subject of some controversy. It was such an immense sphere, however, that its exact distance from any given point could not be determined and was merely a matter of speculation. It was reported as passing a mile west of Hampstead at 3.30 P. M. and directly over Manchester a few minutes later; but reliable parties at Patapsco, nearly 6 miles southwest of Hampstead, claim to have seen it in that vicinity about 3.30, and at so short a distance that the three men who occupied the car were plainly discernible without the aid of glasses. It is also claimed that it passed within a couple of miles of this city, also over Cranberry and Bachman's Valleys, over the former of which it floated so low as to nearly come in contact with farm buildings and then rose to a higher altitude as ballast was thrown out. Evidently its great bulk made its distance from observers deceptive.

Mrs. C. R. Miller Complimented.

Mrs. Sadie Miller, wife of Mr. C. R. Miller, of Baltimore, both formerly of this city, is thus complimented by the Baltimore American, of Tuesday last:

"The series of articles in *Leslie's* Weekly by Mrs. C. R. Miller, of Baltimore, illustrated by herself, are attracting much attention, both in this country and in Cuba, where they show an impartial view of Cuban life and conditions. One of Mrs. Miller's interesting papers relates to Cuban women and their shut-in lives as contrasted with the freedom of American women, the fear of the native Cubans that their women will be contaminated with a longing for independence from American examples and the almost childish delight of the Cuban woman who has married an American and realized the joys of liberty. In the last issue of Leslie's Mrs. Miller gives a most interesting account of a remarkable school for children in Santiago, managed on the same lines as the famous "Raja Yoga" or "Universal Brotherhood" School in Point Loma, California. The influence of this school upon pupils of the lowest class—almost full negro-blooded—Mrs. Miller says is remarkable. She gives an absorbingly interesting account of the school and its teachers, also of its promising results, the paper, terse and succinct as it is, indicating clearly on what lines American civilization and progressive ideas can best be brought to Cuba. In fact, these articles of Mrs. Miller's are valuable not only from the facts they give, but also from the suggestions they offer. They put the island dependency of the United States in a much more favorable light than it has hitherto been presented, especially in the admiration and gratitude to this country, the possibilities and potentialties of the Pearl of the Antilles. Mrs. Miller's articles really deserve to be classed in the ranks of educating literature.

Bachman's Valley Items.

Unusually cold weather is being experienced for this time of the year. The fruit crop has been damaged to a great extent, the hay crop will be very short and much damage is being done to the rye which is now in blossom.

Some representatives of the Mason & Dixon Mining Co. were here last week. They expect to begin work in the near future.

Mr. Herbert C. Bixler met with an accident last week which might have proved a very serious one. He was hauling logs to a sawmill and while going along Stewart's hill on the county road leading to Union Mills, turned his team to the side of the road to enable Dr. Wetzel to pass. The wagon slipped down the steep bank but was caught by some trees and stumps. But for those obstacles the wagon and horses would have tumbled into Pipe Creek, one hundred feet or more below the road. Such dangerous places should be guarded by a fence. We understand that one is being put up along the road at present.

Mrs. Rachel Frock, who has been ill at the home of Mr. C. H. Smith for some time, is worse at present.

Mrs. Howard Wine, who has been ill during the past week, is convalescing.

It was sailing north at the time it was visible here and a short time afterward it was seen passing about two miles east of Hanover, Pa. It was seen by a number of persons in this neighborhood who say it was occupied by a man, who was plainly seen. No doubt it was the large army balloon released at Washington the day it was seen.

Jerusalem Union Sunday School has decided to hold its annual celebration on Saturday, September 14th, in the same grove in which it was held last year. Don't forget.

A Trip to California.

Dennings, June 5th, 1907.

Mr. Editor:

As I have just returned from a visit to the land of flowers, I feel I would like to fill a small space in one of your columns as I am sure our many friends who are interested in our safe return will be glad to read an account of our safe trip across the continent. Leaving Union Station, Baltimore, May 7th, at 8.45 A. M., going by way of Harrisburg, Pittsburg, Indianapolis, Ind.; St. Louis, Kansas City, Mo.; Topeka, Kan., and Colorado, we crossed the Rocky Mountains. Oh, what a sight! we could easily tell why they were thus named. Traveling day and night, seeing wonderful sights, until Saturday afternoon, when we reached the Grand Canyon of Arizona, which is indescribable. One cannot form the slightest idea of the awful grandeur of the gorge. There we were in a real snow blizzard. About six inches of snow fell Sunday. We left Monday for Los Angeles, passing through New Mexico, thence to California. At the first station we reached after we got in the orange section the owner of an orange grove came in and went through each car giving each of us an orange to welcome us, then took us through the packing house and treated us again. From there we went to Lordsburg and after being welcomed and taken through the Bretnren's College, we were returning to our car when who should step up to us but our old friend, Prof. W. K. Franklin, who, having known of our coming, had arranged to have us spend some time with him at his home. He is looking well and shows he is in a healthy climate. We want to say we were never treated more royally than by the professor. We spent the night and on the following day he secured a team and took us through the orange groves and as he has many warm friends they told him to take his friends in the grove and let them help themselves, which we did. Oh, what a privilege! I shall ever remember it, with the beautiful golden oranges and the dark green foliage. How I wished my friends were with me. I want to say here that while we enjoyed and appreciated the professor's hospitality we shall ever feel greatly indebted to him for his kindness. He is busily engaged teaching music which he enjoys much. From there we went on to Los Angeles arriving a few days before the Brethren's meeting. We took in some sights, visited Long Beach and Rodunda. The sight of the flowers is beautiful. Rodunda is a great fishing resort. It is there that Prof. Franklin, with many of his friends, spend their vacation fishing. Many of the fish caught weigh from 28 to 50 lbs. each. Oh, what a beautiful sight the ocean is! After spending much time there we visited our cousin, Mrs. Aggie Snader, at Santa Anna, where we had a delightful visit in her hospitable home, enjoying hugely the different fruits grown there, which she served in abundance. We left Los Angeles May 24, going up the Pacific coast on the S. P. R. R. to San Francisco, viewing the ruins caused by the earthquake and fire, thence to Oakland, through Oregon to Portland, then Seattle, where we stopped and viewed the city, attending services at the first Baptist Church. Monday we went up to Sumas, changed cars for the Canadian Pacific R. R.; again changing cars at Winnipeg, then to North Bay, then Toronto, reaching Niagara Falls 3.30 P. M., having traveled day and night since Monday. Stopping, we visited the Falls and considered them only a small sight compared with the sights we had been seeing. The lakes were beautiful, some of them having been covered with ice. We experienced very cold weather, having been in sight of snow all the way across Canada. When we reached Buffalo it was raining, the first we had seen since we left old Maryland. We left Buffalo at 9 P. M. Saturday, reached Baltimore Sunday, 7.30 A. M., arriving at New Windsor 12 o'clock Sunday. Could tell of many more sights but will close.

The people of our village had the pleasure of seeing a balloon pass here Tuesday about 3.30 P. M. and by all appearance a man was in the car.

Manchester Items.

The chief topic among our people since my last has been finding fault with the weather man. It is too wet and too cold for the season. Grass and grain are taking on a good growth but corn is at a standstill, as are many of the garden vegetables. Farmers in this district are complaining about the corn coming up bad. Some replanted whole fields and others parts of large fields.

The people of our town and community were very much excited about the passage of the army balloon on Tuesday afternoon. It passed over town and brought every person out of doors to watch its onward flight northwest at such a height that the car only appeared the size of a common basket and the men in it the size of a large doll. It passed over the square of town at 4 P. M. and then over Black Rock 8 miles north at 4.43 P. M. Persons who were 3 or 4 miles apart, saw it almost overhead, and it was interesting to hear them compare notes during the evening.

Baseballism, that was dormant here for some months, suddenly sprang into life again and a club was formed which promises to be heard from during the season. The ground has been leased and will be put in proper trim. The boys will hold a fair and festival in the I. O. O. F. Hall on Friday and Saturday evenings, June 7th and 8th.

The Messrs. Eyler, of Middleburg, have put up a fine iron fence on the Church street and York street side of the new cemetery which adds much to the appearance of the plat.

A number of our representative citizens were in Westminster on Monday with the promoters of the Manchester and Hampstead Electric Railroad, to procure a franchise for the company to build the road along the turnpike from the Baltimore county line to the Pennsylvania line.

Mr. Charles Brilhart has had his home and other buildings painted a uniform color, adding much to their appearance. Mr. William A. Burgoon was the painter.

Mr. Criste is boring a well for the Manchester Lighting and Heating Company at the gas house. Water in the ordinary well became exhausted.

Mr. Ed. Crumrine, who has been in failing health for several years but more particularly for several months, is quite ill at this writing.

Mr. and Mrs. A. H. Geiselman and son visited friends in Hanover, Littlestown and Frederick from Thursday to Monday.

Mrs. D. L. Dubbs attended the funeral of her cousin, Miss Mary D. Krantz, in Baltimore, on Wednesday. Miss K. was a native of this town where she spent her young girlhood days. She was a daughter of the late John Krantz, who was long a resident of this place.

Mr. John Staub and lady friend spent decoration day in Littlestown and enjoyed the exercises of the day. Mr. S., as marshal, headed the procession upon his bay horse Dinty that kept time to the music by his prancing.

Mr. Thomas M. Bosley, of Greenmount, who we noticed some weeks since as being extremely ill with pneumonia, is quite able to be out and about again.

Mr. William T. Everhart, who was brought to the home of his brother, Mr. Chas. H. Everhart, several weeks ago, is much improved and bids fair to soon be able to be about again.

Our firemen are drilling for the Annapolis parade next week. They have joined hands with the Hampstead firemen and will be accompanied by the Alesia Band.

Invitations are out announcing the marriage of Mr. Carroll Warehime and Miss Wentz, of Lineboro, on the 18th inst. Mr. W. is an employee of the T. W. Mather & Sons Department Store here.

R. E. Williams Replies to the Article, Baseball Game Forfeited.

Being a member of the Dennings baseball team, I wish to correct a false statement in reference to our team forfeiting the game Tuesday to the Western Md. College. We have been accused of quitting at the end of the fifth inning, the score then being 6 to 5 in Dennings favor, that we forfeited the game to W. M. C. I wish to state that the agreement was in the very start, to call the game about 5.30 as it was necessary for part of our team to quit in time to meet the train. We therefore, as agreed upon, did call the game at 5 30. Had the umpire been anything like fair we would have come out still with a greater victory. We asked that Mr. Lantz, of New Windsor, one who has the reputation of rendering fair and square decisions, besides having the ability to umpire a game, be allowed to umpire at least one-half of the game, but was refused as to his umpiring the whole or part of the game. We agreed then to have their well known umpire rule the game, one who professes to be quite an athelete, also a has been, bicycle rider-past, tennis player-present, and in the future you may find him with the Chicagos, either as umpire or active pitcher. To win the games naturally he will be made umpire. Is it known why the Rock Hill would not play with the W. M. C.? Well they heard about the game between them and the mutes, i. e. the umpiring. Yes the W. M. C. furnished the ball, we agree, one that was not much better than a rag ball, and their bats they kindly loaned us to hit this poor rag ball, only though for the first inning, after which we were told that we should use our own bat, having one, which we did. We do not profess to be professional ball players, therefore we do not carry with us the equipment necessary to play ball, believing same would be cheerfully furnished. The W. M. C. may be expert pumpkin huskers, but surely lack the ability of good ball players, and of course will win occasionally having with them at all times their beloved umpire who sticketh closer than a brother. Bum playing with such an umpire will surely win, and the Dennings, dealing as they did with such an umpire, cannot hesitate to express their feelings that they are naturally proud of their victory 6 to 5.

This score in favor of Dennings was substantiated by the large crowd on the grounds. Baseball goers as a rule have eyes, and are competent to judge the superior work of players, of which Dennings won the favor. Never was there in store a greater surprise for the Dennings, when they first met the Dudes and their loving Boodle.

Score unanimously decided in favor of Dennings 6 to 5.

R. E. WILLIAMS.

Another communication on the same subject written by the manager of the Dennings' team, Carroll E. Stem, was received after the above was in type. It is generally of the same tenor, but contains the following challenge to the college team: "Now," it says, "if they want to stand up to their writings why just put up $15.00 and we will show them that they do not know how to play even rag ball. Now boys, show your colors, but please employ an umpire that has seen a baseball."
