fence of not I the Rail Road was laid down where that was built in 1852 or 1853 I don't know how long it was from the time the Rail Road was built before the fence as it now stands was put up Being re examined says John T and James Morrison have been in possession of the lots since they reached age I have never heard of any claim in part of any one else to this property until Hemmond made this claim my impression is that the lumber was hauled round the lot to the boat yard Mr Murphy built boats there I do not recollect of Mr Shems building lumber through the lot I cannot say the fence was always kept up The old fence was pulled down near the rail road when the rail road was built The road was about a year in construction I do not know when the new fence was put up The rail was built in 1852 or 1853.
