as formal and dignified as he was when presiding over the convention. But Mr. Lincoln seemed embarrassed and ill at ease. He constantly shifted from one foot to the other and appeared to be anything but elated. His manner was cause for surprise to those who did not comprehend its occasion. I thought I grasped the meaning of it when at the conclusion of the Governor's harangue Mr. Lincoln, who towered above us all and wore a black frock coat reaching fully to his knees, stept out, a long stride, with his left foot and thrust his right hand behind him and into the tail pocket of the coat, from which he drew half a sheet of writing paper on which he had written his response to the notification address.

"His restlessness, I am sure, was caused by the apprehension that something might be said of a character dangerous to the cause of the Union in which he was bound up, body and soul. He seemed much relieved when the ceremony was over, and as each member of the committee was presented to him, grasped his hand, shook it cordially and expressed his pleasure at our presence, with a word of exhortation to be firm in sustaining the cause of the Union."

FARMERS' INSTITUTE

Special School of Instruction in Westminster.

At Union Bridge, February 19 and 20.

The special car of the Department of Farmers' Institutes of Maryland Agricultural College reached this city early Monday morning, 15th inst., and remained on the side track between the station and the warehouse until Wednesday morning. A corps of instructors is spending the month of February, with this car, along the lines of the Maryland and Pennsylvania and Western Maryland Railroads. Mr. William Lee Amoss, Director of the Department, accompanies the car, and personally superintends the holding of institutes and schools of instruction.

On Monday, a Farmers' Institute was held at Odd Fellows' Hall, this city, which was attended during the day by more than three hundred farmers.

At the morning session, the lecturers were Mr. Joseph E. Wing, who with his brothers is a proprietor of the Woodland Farm, Ohio, celebrated for its wonderful success in the growth of alfalfa and in sheep raising; Dr. Augustus Stabler, secretary of the Physicians' Club, of Sandy Spring, Montgomery county, member of the local board of health of that county, and of the State Medical Faculty, and lecturer for the State Grange; Mr. Sanford H. Fulton, specialist in horticulture, and for several years Assistant Pomologist of the United States Department of Agriculture.

Mr. Fulton gave practical instruction as to the selection of stock, and the planting of young trees. Mr. Wing discussed the "Principles of Soil Building," and laid special stress upon the necessity of liming the soil and the certain good results to follow. Dr. Stabler gave a practical talk on "Typhoid Fever, Causes and Prevention."

At the afternoon session Mr. Fulton gave a lecture on the cultivation and use of crops in the orchard. Mr. Wing's subject was "Alfalfa Culture." He described the marvelous results of alfalfa on his own farm and said that the same results could be obtained in this part of Maryland by the use of the same means. He told how ninety acres after producing an enormous tonnage of alfalfa during four successive years, cropped 9,000 bushels of shelled corn the fifth year. The soil must be dry. Alfalfa will not grow where it is wet. It can be made dry by drainage. It must have soil. Soil must be fertile. First of all it must be well limed. Phosphorous is then needed, in some form, ground bone, acid phosphate or some other form. The roots of the alfalfa supply all the nitrogen necessary.

Dr. Stabler's lecture on "Causes and Prevention of Tuberculosis" was timely and was heard with strict attion. He emphasized the fresh air treatment, the teaching of deep breathing to children and the sleeping with windows open at night.

On Tuesday, a school of instruction in horticulture was conducted at the car, by Mr. Fulton, who lectured in the morning on "Pruning, Spraying and Fertilizers," and in the afternoon on "Picking, Packing and Sorting Fruit." Messrs. Amoss and Wing and Dr. Stabler drove to Snydersburg, where they held a local institute.

At the meeting on Monday a local organization was effected, through which it is hoped arrangements will be made in the future not only for holding local institutes of one or two days, but for the organization of classes, to receive regular instruction for such term as shall be agreed upon in courses similar to those which are taught at the Maryland Agricultural College, thus enabling farmers, their wives and children to receive the benefit of the College without attending the institution. The officers of the local organization chosen by a nominating committee are Messrs Robert Gist, Westminster, chairman; M. E. Walsh, secretary treasurer; E. P. Slingluff, New Windsor, J. W. Beachem, Avondale, Joseph W. Smith, Westminster, Harry Young, Westminster, executive committee.

The work of the Department of Farmers' Institutes of the Maryland Agricultural College cannot be too highly praised, and the results in benefit to all who are interested in agriculture cannot be estimated, if the department can have what it merits, the earnest cooperation of the citizens of the State, in whose interest it is working.

ALL WRONG

The Mistake is Made by Many Westminster Citizens.

Don't mistake the cause of backache. To be cured you must know the cause. It is wrong to imagine relief is cure. Backache is kidney ache. You must cure the kidneys.

A Westminster resident tells you how.

A. L. Williams, Liberty street, Westminster, Md., says: "I consider Doan's Kidney Pills an efficient remedy for kidney disorders. At the time I began their use, I was greatly troubled with a weakness in my back, became tired easily and so languid at times that any ordinar exertion was a burden. I also suffered from severe attacks of dizziness and felt generally miserable. Reading an endorsement of Doan's Kidney Pills, I decided to try them and procured a box at Chas. W. Moore's drug store. I had taken them only a short time when there was great improvement and continued their use until all disorders were corrected. It gives me much pleasure to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents.

Advice to the Aged.

Age brings infirmities, such as sluggish bowels, weak kidneys and bladder and TORPID LIVER.

Tutt's Pills

have a specific effect on these organs, stimulating the bowels, causing them to perform their natural functions as in youth and
