one hundred at ten perches, then with the given line of said Lot North eighty-eight and three-quarter degrees, East eighty-one and eight-tenths perches to the beginning, and designated on the Plate by black lines numbered with black figures 1, 2, 3 & 4.

I have also by directions of Plaintiffs' counsel carefully located and laid down by actual survey the second and third lines and part of the first line of a tract or parcel of land called "Kensington" and the rest of the lines, and part of the first line by protraction according to their original metes and bounds, courses and distances and calls as contained in the Patent for said tract of land, bearing date the 23rd day of July, 1831: Beginning at black E. on the Plate, and running with the first line of each of Military Lots Nos. 3,138 & 3,139, South eleven degrees, West two hundred and six perches, then with the second line of the last mentioned lot, West sixty perches, then reversing the first line of said tract from black E, West ninety-eight perches to the beginning of the given line of lot No. 3,138 shown on the Plate by red E.

I have also by directions of Plaintiffs' counsel carefully located and laid down by actual survey the first, second and third lines contained in a deed from John W. Frantz et al to Elijah Friend, dated the 6th October, 1866 & recorded among the Land Records of Allegany County in Liber H. R. No. 25 folios 271 &c., and the last line by protraction, and designated on the Plate by the black letters L, E. F. K, Beginning at the end of the seventy perches on the 16th line of "The Blooming Rose," shown on the Plate at black E, and reversing the first line in said deed, West two hundred and twelve perches and nine links to black L, the beginning of said line extending the

line in the deed twelve perches and nine links, then from black E, running the second line in the deed with part of the 16th line of "The Blooming Rose", South eleven degrees, West one hundred and twenty and eight-tenth perches to black F, ~~one hundred and twenty and eight-tenth perches to black F~~ on the Plate, then North sixty one degrees, West with a variation of 1½° to the right, two hundred and nineteen perches to the end of eleven perches on the first line of Lot number twenty-nine hundred and seventy shown on the Plate at black K.

I have also by directions of Plaintiffs' counsel carefully located and laid down by actual survey said deed as follows: Beginning at a Hickory tree shown by black I on the Plate, and running thence North eighty-five degrees, East twelve and four-tenth perches to black E. then same as located above, and shown on the Plate by the black letters L, E, F, K.

I have also by directions of Plaintiffs' counsel carefully located and laid down by actual survey the above deed as follows: Beginning at a Hickory tree at black I on the Plate, and running thence North eighty-five degrees, East twelve and four-tenths perches to black E, then South eleven degrees, West one hundred and twenty and eight-tenths perches to black F. then South seventy nine degrees, West fifteen and three-tenths perches to a stone and two maple stamps shown on the Plate by black J, then with third line in said deed, North fifty eight degrees, West with a variation of 2¾° degrees to the right, two hundred and seven and three-tenths perches to the end of eleven perches on the first line of Lot twenty-nine hundred and seventy, shown on the Plate by black K, then with the last line in said
