at the end of eleven perches on the 1st line of Lot 2,970, the 4th and 1st line same as located for Plaintiffs.

I have also by directions of Defendants counsel carefully located and laid down a plat for part of a tract of land called "Kensington" surveyed and made by Singleton Switzer, surveyor for Joseph L. Forsyth, June 7th 1860, and shown on the Plats by the black dotted lines numbered with black figures 1,2,3,4,5 & 6 from Black I, around to the beginning at Black I, and being the south part of said tract, made under the hand of said Switzer as by his statement.

I have also by directions of Defendants counsel carefully located and laid down by actual survey the lines contained in a deed from Leonard Smith and Eliza Smith to Michael Milhollen bearing date the 5th day of April, 1842, and recorded in Liber C.C. one of the Land Records of Allegany county, according to their ancient metes and bounds, courses and distances, and calls as therein contained, and shown on the Plats by the black dotted . . . . . lines, shaded yellow, and black dotted line . . . . . shaded blue, and numbered with red figures 1,2,3,4,5,6,7 & 8; Beginning at a point north 39°, west one perch from a bounded Birch, standing at the end of the 16th line of the "Blooming Rose," and bearing three very old marks or hacks, and pointed out on the ground by John Friend, Wm. B. Frantz, Jeremiah Jamison and Ira E. Friend, as being at the end of said line, and the beginning of lots Nos 1 & 2 of the divisions of "Blooming Rose." and running thence the 1st line in said deed, which is also the 17th line of the "Blooming Rose," south forty-six degrees, west one hundred and fifty-two perches, bounded chestnut called for could not be found,

as the land is all cleared, then with the 2nd line, which is also the 18th line of "The Blooming Rose," south sixty-one degrees, east one hundred and forty-four perches, the bounded tree called for could not be found, land cleared, then north twenty-two degrees, east ninety seven perches, the stake and small chestnut called for could not be found, land all cleared but cornered near the head of a small spring in a hollow, the spring is shown on the Plats at the end of the third line of said deed, then with the fourth line which is also the twentieth line of the "B.R." north eighty degrees, east sixty-eight perches, bounded tree called for could not be found, as the land is all cleared, then north twelve degrees, west one hundred and thirty-five perches and a half, extending the line in the deed one-half perch, to a stake, shown on the Plats by red I. where stood a bounded white oak and hickory described as standing at the end of the 21st. line of the "Blooming Rose" and the place pointed out on the ground by Ira E. Friend, Jeremiah Jamison, and Alfred Kelly, for the end of said 21st line, then with the 6th line of deed, which is also a part of the twenty-second line of "Blooming Rose". North forty-four degrees, East fifty-five and one-half perches, then North seventy-five degrees, West one hundred and eight and one-half perches to the 16th line of "Blooming Rose", shown on the Plats by red I. found this line to be one-half perch too long, then with said 16th line of the "Blooming Rose," South eleven degrees, West one hundred and twenty-eight and four tenths perches to the beginning. All the lines in said deed I run with a variation of 3¾° to the right.

I have also by directions of defendants counsel carefully located and laid down by actual survey, the 2d, 3d, 4th & 7th
