For the Sentinel.

A dinner in camp is always considered a great treat to the ladies, but I am sure none of them enjoyed the novel experience at Camp Crothers last summer any more, if as much, as Mrs. W. L. Seabrook and Miss Mary B. Shellman enjoyed the charming little dinner given them on Wednesday by their two young military friends, Masters Laurence Fink and Jack Worthington, in their camp on the lawn in the rear of the residence of Charles E. Fink, Esq. These two young gentlemen have been enjoying camp life to its fullest extent, making their own meals, keeping the camp in order, and making the air ring with their bugle calls and drum. The ladies were escorted to the tent promptly at 12 o'clock, where they found a most tempting looking table spread with a white cloth, with a floral center piece, and a most appetizing dinner of meat and vegetables with custard pie for desert, and Master Walter Edwards in white apron to wait on the table. Custard pie in camp is a great delicacy, but "Addie made it," so the ladies were informed, and that is proof positive that it was good. The dinner was a great success and the ladies feel highly honored by the courtesy shown them by their young friends. They will break camp on Saturday.

## A HELPING HAND

### Is Gladly Extended by a Westminster Citizen.

There are many enthusiastic citizens in Westminster prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

John Stem, Main St. Westminster, Md., says: "A few months ago one of my relatives procured a box of Doan's Kidney Pills at C. W. Moore's Drug Store and they did him so much good that I decided to give them a trial. My trouble came from an injury I received at least ten years ago. My back was very weak and I suffered severely from pain through my loins, which greatly handicapped me in doing my work. I tried many remedies, but received little relief until I used Doan's Kidney Pills. I can recommend them as a reliable preparation for kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other. ju 24 2t

## AUTO LAW IN EFFECT TODAY

### Chauffeurs Must Take Out Operators' Licenses.

Today the new automobile law passed by the last Legislature goes into effect, when all the chauffeurs' licenses and certificates of registration under the old law will have to be exchanged for operators' licenses under the new law. Commissioner John E. George has opened offices in the Union Trust Building and will devote all his time and attention to the work.

FEES FOR LICENSES.

A radical change has been made concerning the issuance of licenses to operators. Under the old law owners of motor vehicle, and other persons, except chauffeurs, were not obliged to obtain licenses to operate machines. Under the new law no person is permitted to operate a motor vehicle unless he has an operator's license, the only exception being in the case of a person accompanied by a licensed operator.

The following fees must be paid for licenses to operate motor vehicles in this state:

Class A. Six dollars per annum for each motor vehicle with a rating of 20-horsepower or less; $12 per annum for one with a rating of more than 20-horsepower and not more than 40-horsepower, and $18 per annum for one with a rating of more than 40-horse power.

Class B. Three dollars per annum for each certificate of registration of a motor vehicle used only for transportation of merchandise.

Class C. One dollar and eighty cents per annum for each certificate of registration of a motor cycle.

Class D. Twenty-four dollars per annum for each certificate assigning a general distinguishing number or marks to a manufacturer or dealer in motor vehicles other than motorcycles.

SPEED AND ACCIDENTS.

According to the new law the rate of speed of motor vehicles shall not be more than 12 miles an hour in the thickly settled or business section of the city, 18 miles in the outlying districts, or more than 25 miles in the open country. It is no longer an offense, according to this law, to simply exceed a speed limit as formerly, but the speed limits are set merely as prima facie evidence, leaving the conviction largely to the sound discretion of the magistrate.

The law also requires in the case of accident the operator of the machine must stop and give his name, residence and the number of his license to operate, on demand, and render such assistance as may be reasonable and necessary.

Only such horns for warning signals can be used as operate by hand pressure. Motor vehicles are not to be tampered with by the bad boy or the inquisitive man under penalty of fine. Joy riding is prohibited and chauffeurs will be heavily fined for taking their owners' cars without permisson. The fine may be $500 or imprisonment for 90 days, or both.

For the Sentinel.

### The World's Sixth Sunday School Convention.

By G. W. Yeiser, delegate to the convention.

"These few days will do more to set Sunday School work forward throughout the world than ten years, ordinarily, could do," said a young man from Great Britian to an American on the first day of the great convention.

If these great results are to be achieved it must be done to a great extent through the 3,000 delegates to the convention, and the press.

As each delegate represented 100 schools, 1,000 teachers, 10,000 scholars, the readers of this letter can see at a glance the responsibility of being a delegate if he would carry back to the Sunday Schools he represents the theme "The Great Commission" and the reports given at the convention from every clime, and from every part of the world.

Carroll county has 90 Sunday Schools, 800 teachers and 10,000 scholars but one delegate to the convention only.

As the delegates representing our well organized Sunday Schools of the county, I feel it my duty to lay at our feet the responsibility for the salvation of 30,000 Moslem children, to say nothing of the other heathen children of the world who, divided among the delegates would give at least another 30,000 to our county. According to these reports, if the Sunday Schools of Carroll county will send two missionaries to Foreign fields (not at the expense of other organized missionaries to benevolent work) our Sunday Schools will meet their apportionment of the evangelization of the children of the world during this generation.

There are 27,888,479 Sunday School scholars and teachers in the world.

Over 23,000,000 of these are in North America and Great Britian, leaving less than 5,000,000 in all the other lands of the world.

70,000,000 children in Moslem lands alone, but not in the Sunday School.

The report from Turkey given by Dr. Zwemer says that there is no place in the Mohammedan religion for children and the heaven the Koran pictures is not fit for a child.

And there is no place on earth for a Moslem child, for the Koran teaches that the parent that does not marry his children before 12 years of age is responsible for any sin they commit.

Therefore the Mohammedan religion cuts off early childhood on earth and teaches a heaven so foul that no child should be allowed to hear of it.

"But if the watchman see the sword come, and blow not the trumpet, and the people be not warned, and the sword come, and take any person from among them; he is taken away in his iniquity, but his blood will be required at the watchman's hand."

F. M. Burton says, "Each delegate is responsible for bringing the knowledge of the 30,000 Moslem and 30,000 children of other heathen nations to the 10,000 Christian children and Sunday School workers he represents.

When this is done then shall the Christian children of America and Great Britian and other lands lead a crusade which shall conquer in love the heathen boys and girls."

Then he says, "Are you a broken bridge or closed door?" It is this question that brought me out of my moorings, and is responsible for this letter.

You may think you are glad you are not a delegate. But stop! You are a delegate at large, and you are authorized by the association to fill in your name and state and become a part of the bridge or open door to carry the message across.

On May 22nd the Association in convention held simultaneous sessions on a single day in a consecutive chain of cities, towns, villages, and hamlets, belting the entire globe in every direction of the compass, and what is still more remarkable, in more than 200 languages and dialects.

If the Association can hold special sessions simultaneously on the same day, in more than 200 languages, it can also send back to every city, village, and hamlet the report of the great convention.

This will mean as much advancement in the forward movement of the Sunday School as 10 years, ordinarily, could achieve, if the young man from Great Britian has a correct vision.

### Spencer Made to Make Good by Foxy "Punch."

We take the following, relating to Mr. Ray Spencer, one of our last year ball players, from the Dayton, Ohio, Journal.

"That man Spencer is most assuredly a slugger. The fans are getting so that they expect a hit from the new man at his every appearance. He has slammed the ball for an average of .508 and a total of 13 bases. He steps right into the ball and when he meets it fair it goes on a line."

And from the Dayton Herald, the following:

"Our own "Punch" Knoll has always been rated as a wise leader but if there was ever any doubt about it he certainly showed that he measures up to the best of them in the thinking department of the game when he shoved Ray Spencer, the new Vet outfielder, into fourth place in the batting order right off the reel. Spencer came to the Vets touted as a hitter and "Punch" made Spencer believe he is all he was cracked up to be by putting him in the clean-up hole without having seen him perform.

Spencer was led to believe that he had made good before he even touched a bat. When he asked "Punch" where he was hitting before the game Saturday and the boss told him fourth place, Spencer's eyes opened wide. "Gee, in the clean-up hole without seein' me hit!" he exclaimed.

"You CAN hit, can't you?" asked Punch.

"You bet I can," answered Spencer.

"Well, all I want you to do is to hit that ball and grab all the flies that comes out in right field and you won't have to worry about your next meal," assured the boss.

"Putting him in fourth place in the batting order gave Spencer the confidence he needed to break in with. Few untried men ever had a better opportunity and he grabbed it in fine style, hitting good and fielding all right. In the first game Saturday he failed to bingle and in the second he got two raps in two trials. Sunday he made two more safeties in three attempts, giving him a batting average of .444 as a Vet. Spencer showed that he can grab flies all right Sunday when he pulled down four hard ones. Being new to the Grand Rapids batters made it difficult to play for them in the right spot, but he caught their flies just the same by covering a world of ground. With more playing he will be able to judge their distances better and he should make the Vets a valuable man."

The most exciting runaway we have had for a long time was enacted on Monday afternoon on South Main street. Mr. J. W. Hienekamp, salesman for the National Cash Register Company of Dayton, Ohio, drove into town to the store of Geo. M. Hoffman, where the mare he was driving put her head down and rubbed against the hitching post. A hook or protruding iron caught the bridle and when Mr. H. drew on the reins she threw up her head and the bridle came off. He jumped from the buggy and the mare at once started on a run. At the Hoffacker store she fell, but regained her feet and dashed madly down street bringing everybody to the front. At the home of J. W. Burn's she jumped the gutter to the pavement, the buggy catching a tree and porch post was considerably broken, the harness torn and the runaway free to continue her mad career down the pavement for quite a distance and there on the street to the home of Mr. Hare, where she was caught, bleeding profusely from cuts on her knees, legs and head. The buggy was taken to the shop, the mare to Dr. Keller's, who dressed her wounds. Mr. H. was taken to Westminster, leading the runaway home.
