AMERICAN SENTINEL.

WESTMINSTER, MARYLAND

JOS. D. BROOKS, Editor.

Entered at the Postoffice at Westminster, Md., as Second-class matter.

On and after tomorrow, Saturday, May 6th, 1911, the office of the American Sentinel will be located at Main and Liberty streets.

What has become of the proposed County Fair ?

It will not be very long before the graduates will be "in our midst."

Have a care for the birds. Don't let worthless cats eat up our best friends.

Mrs. Mary Harris Armor's illustration of "the finished product" was excellent. It was simply unanswerable.

If Mrs. Mary Harris Armor trod on your toes she apologizes by hoping she "mashed" them off.

Make a thorough job of the 'city cleaning" matter. The broom and shovel are mighty fine "weapons."

The dust on Liberty street is just as objectionable as that on Main street. Why not look after it too ?

Messrs. Reese, Woodward and Davis, the reelected members of the Common Council, have made good and on Monday last the people of this city said so.

The advocates of a Farmers' Free List need not think they are fooling any one. The farmers of this country are wiser than a lot of the city fellows imagine.

The Radicals in Congress have struck a snag. The changing of tariff schedules is not so easy. Just give them a little rope and they will hang themselves.

Any mere man who has the temerity to meet Mrs. Mary Harris Armor in joint debate on the liquor question will certainly get what's coming to him.

The right to vote on local option will be the paramount issue.

The Republican party in this county will offer a splendid ticket to the people, and every member of the party will be in line.

Gov. Wilson, of New Jersey, candidate for the Democratic nomination for President, will make a "swing around the country." He says it is not for political purposes but he will have a hard time convincing Gov. Harmon, of Ohio, who is also a candidate.

In one breath the Radicals want a government by commission and in the next are advocating the very opposite. This is a government by representatives and in the long run will be found best because it expresses the mature thought of the nation.

Some of the advocates of the Canadian Reciprocity Agreement, in answer to its opponents, state that cattle and farm products are higher in Canada than in this country and that therefore the farmers will not be injured. If that is so then how is the consumer in this country to be benefitted, and why should this country give up $10,000,000 in revenue ?

In a speech at the thirteenth annual banquet of the Daily Princetonian, held at Princeton, N. J., Monday Attorney General Wickersham hit the nail on the head when he declared that "we are in truth a lawridden people, and this tendency is stimulated by those who seek popular favor by pointing to easy remedies for obvious ills."

Free wool will wipe out 20 million dollars of revenue, the farmers' free list five million dollars, and the Canadian Reciprocity 10 million, making a total of 35,000 dollars less revenue to the Government. If all these proposed laws are enacted the Government will be forced to issue bonds. That is what happened when the Democratic party insisted upon passing the Wilson law.

The Democratic members of the Ways and Means Committee of the House are learning that talking low tariff and passing a low tariff law are two very different subjects. In their efforts to put wool on the free list they have discovered that the committee is composed of Democratic members who favor free wool, three in favor of a low tariff and two in favor of a protective tariff.

Mrs. Mary Harris Armor, of Georgia, the noted temperance speaker, who spoke at the college auditorium, this city, on Sunday last, fully sustained her reputation. She is a wonderfully gifted woman and impresses her hearers with her sincerity of purpose. The large building was filled with an intelligent and appreciative audience which was very soon convinced that Mrs. Armor had more than a "twine string for a back bone and her blood was not that of frogs and lizards."

The people of this country are too busy with their own affairs to be always engaged in making laws or repealing bad ones. If representative government was the proper thing for our forefathers, whose time was not taken up with stupendous commerical and agricultural matters, why should we make a change ?Every one is now kept busy hustling for a living, but the radical politicians are consumed with the idea that unless they are kept in office the government is going to the bad.

MANCHESTER.

Cheer and sunshine was taken to the home of Mr. and Mrs. Wm Abkin, on South Main street, on Thursday evening of last week, it being the 65th anniversary of Mrs. A.'s birth, who for a number of years has been much indisposed and at times almost helpless, while Mr. A. for several months during the winter was ill from cold and grip almost to a decline. THE HALL OF FAME.

SAMUEL F. B. MORSE—Inventor of telegraphy. Born Charlestown, Mass., April 27, 1791; died New York April 2, 1872. Was graduated from Yale in 1810. After studying art in England under Benjamin West, the

American painter, he tried to establish himself as a portrait painter in several American cities, opening a studio in New York in 1823. He was not highly successful as a painter, though he was the first president of the National Academy of Design from 1826 to 1842. In 1832 he designed the electric telegraph, a working model of which he placed on exhibition three years later. After he had made many futile efforts to enlist either private or governmental aid in the invention congress at last granted an appropriation in 1843 for the building of a telegraph line between Washington and Baltimore, the first in the world.

THE HALL OF FAME.

JOHN ADAMS—Second president of the United States. Born Braintree, Mass., Oct. 30, 1735; died Quincy July 4, 1826. Graduated from Harvard 1755 and after teaching for a time studied law. Soon went into politics and presented a memorial against the stamp act. Declined an appointment by the governor and, with Samuel Adams, took leadership against British rule. Wrote various articles on taxation. Was elected a member of the First Continental congress and was on the committee to draft the Declaration of Independence. He led in movement to organize independent state governments. Was sent on missions to France and Holland and gained recognition for the colonies and a loan from Holland. Helped negotiate the treaty with Great Britain and was afterward minister. Was elected vice president with Washington and succeeded him as president.

A Last Resort.

Little Boy—I want you to write me an excuse for being late to school yesterday. Jeweler—Eh? You are not my son. Little Boy—N-o, but mamma says I had plenty of time to get to school so I guess the clock you sold her doesn't go right.

IN MEMORIAM.

HOOK—In sad but loving remembrance of our dear mother, Mary S Hook, who departed this life April 29th, 1911, aged 69 years, 4 months and 8 days.

She has passed the shadowy portal
She has borne the mortal strife;
She has left this world of sorrow
For a world of heavenly life;
And our hearts are grieving for her—
Grieving with intense pain;
Grieving that we shall not see her—
Our dear mother—here again.

And our home is dark and lonely,
Sad hearts gather here today,
For its lovelight and its blessing
Has forever passed away.
Guard, oh, earth the form we cherished
(Heaven her sainted spirit keeps
And ye night winds, sigh a requiem
Where our darling mother sleeps.

By her children.
