AMERICAN SENTINEL.

WESTMINSTER, MARYLAND

JOS. D. BROOKS, Editor.

Entered at the Postoffice at Westminster, Md., as Second-class matter.

Don't forget to kill both amendments.

When the State wants real good men it must come to Carroll county.

This new fangled primary law is making a mess of it.

Goldsborough, Soper and Cunningham. What do you know about that combination ? Isn't it a winner ?

We can't all be statesmen. At least not at the same time. Some one has got to wait awhile.

We have gotten into the habit of having a Comptroller of Maryland from this county and we can't break it—because we don't want to.

Many of the Democratic workers in Westminster district were conspicuous by their absence at the Blair Lee mass meeting at the Court House Tuesday night.

The primary election law has brought out a lot of skeletons from the Democratic chest which were never intended to be seen by the "dear people," whom the Democrats claim to be so fond of.

If the primary fight would continue for about one month longer what a lot of "soiled linen" would be washed by our Democratic friends.

Soak him Arthur ! Give it to him Blair ! We thought all along, that rottenness was rampant at Annapolis but now we know it.

If Gorman is guilty of the things Ex-Governor Warfield charges him with, and Lee was a member of the Senate and made no protest, then Lee is as deep in the mud as Gorman is in mire and neither of them is fit to be Governor of Maryland

Vote at the primary election; select who, in your judgment, is best fitted for the office for which he is a candidate and then abide by the result.

Gov. Woodrow Wilson, like many another bright minded man, has talked himself clean out of the race for the Democratic nomination for the presidency.

The Western States that have tried the new fangled primary election law have become utterly disgusted with it and are now getting ready to repeal it.

The West will be solid for Taft and the Progressives will meet their Waterloo. Progression that does not progress is not very progressive, so the people of the West are thinking.

Don't forget that the right to settle certain alleged evil and injurious matters to the satisfaction of a majority of our citizens must not be denied us.

Our Democratic friends have tried to get things in shape but there was nothing doing. They will be compelled to fight it out. Everyone will stay to the finish.

There will be six disappointed Democratic aspirants for the nomination of sheriff. They will have the consolation, a little later on, of seeing the other fellow "get what is coming to him."

You can't all get on the ticket so just take things easy. The world will move along just the same whether you are nominated or defeated. Your day may come later.

If the friends of local option think they are the only active people they will find their mistake a little later on. The anti-local option and liquor people are busy too. Never take it for granted that the enemy is asleep, because he may be only feigning.

The Hampstead Enterprise, published by Mr. Wm. H. Bright, who is a candidate on the Democratic ticket for the House of Delegates, favors the renomination of Arthur P. Gorman over Blair Lee as the Democratic candidate for Governor of Maryland. What do Carroll county Democrats, generally, think of that proposition ?

The very universe teaches us regulation, supervision and control by one great central power. Every thoughtful student of affairs knows that for commercial purposes our State lines have been obliterated. Indeed, national lines have almost been obliterated. What the situation imperatively requires is a constructive national policy in commercial affairs Any man who is above petty prejudice and political party lines knows, deep down in his mind, that what the country needs today is nationalism, and we will have this when we have more statesmanlike representatives in our Congress. Individualism must be preserved, but rather through emulation in collective effort than through competition by individual effort.—From George W. Perkins' Paper on Business Evolution.

The Republican party has been a constructive one and under its wise counsel and guidance this counry has grown to be a mighty nation commercially and otherwise. The present attack on the business interests of the country eminated from Democratic sources and is now being promulgated by a Democratic House.

President Taft has vetoed the bill passed for the admissioin of the Territories of New Mexico and Arizona to statehood. His action was based upon his opposition to a provision in the Arizona constitution for the recall of the judiciary. Under this provision 25 per cent. of the voters in a district or circuit may ask that a new election for judge be held, the incumbent being permitted to be a candidate. Such a proceeding is utterly pernicious and President Taft deserves the thanks of the country for the veto.

Governor Crothers was shrewd enough to force the other fellows' hands. We have never thought the Governor really wanted or expected a renomination because the Democratic party of Maryland never renominates a governor, and to do so in the case of Gov. Crothers would be establishing a dangerous precedent The Governor of Maryland is always in a position to build up a mighty political machine and to allow a renomination would be ruinous to the opposition. The people of Maryland are, as a whole, liberty loving and will brook no curtailment of the rights of its humblest citizen.

Mr. Wm. J. Bryan has served notice upon the Democratic party that he means to take a hand in the nomination of the next candidate of the party for the Presidency. He is quoted as saying : "I intend to devote all my time lecturing now and till the nomination to finding out things about the candidates for the Democratic nomination for President. I know all of the leading men of the party, those who have considered and those who have helped it. When the time comes to name the man for the candidacy I will be silent."

Mr. Bryan may prove a marplot in the plans of his party. If a Bryanite is chosen as the candidate he will not be acceptable to the Democrats in the East. On the contrary an anti-Bryanite will be apt to get the "cold shoulder" in the West.

APPLIES TO STATE ELECTIONS.

Commenting upon the pending constitutional amendment to disfranchise the colored people of this State the Belair Aegis says :

To avoid a hostile discussion of Federal Courts this amendment would apply only to state and municipal but not to Congressional and Presidential elections.

The Aegis must have overlooked the fact that Judge Morris, of the U. S. District Court of Maryland, has decided that the law, passed by the Maryland legislature, to disfranchise colored voters in Annapolis is in violation of the Fifteenth Amendment to the Constitution of the United States. The provisions of the law are practically the same as those of the pending amendment to the State Constitution. Hence it is apparent that, if adopted by the voters of the State, this amendment cannot escape consideration by the Federal judiciary, and it is equally certain that it will no more escape an adverse decision than did the Annapolis law.

The people of Maryland have twice voted upon amendments having in view the same purpose as that again presented for their consideration and have defeated them overwhelmingly. They should repeat that action in this case.

A Card to Voters.

I have been very much gratified at the expressions of the good-will and assurances of support in my candidacy for the Republican nomination for sheriff and nothing would please me more than to be able to visit every precinct inthe county ootore the primary election, but I realize that I have a higher duty to perform. As deputy sheriff my obligations to my superior and the business of the office are keeping me unusually busy at this time, and I cannot neglect them to attend to my personal interests.

I will be grateful to my friends throughout the county if they will take care of my interests in the coming primary and I pledge myself to be as faithful in the discharge of the duties of the sheriff's office, should I be nominated and elected, as I am endeavoring to be in my present position.

Very truly yours,
WILLIAM C. SHEARER,
Candidate for the Republican nomination for sheriff.
