REPORT OF THE GRAND JURY.

Grand Jury Adjourned Thursday After Filing the Following Report.

To the Honorable, the Judges of the Circuit Court for Carroll County.

The Grand Jurors of the State of Maryland, for the body of Carroll county, for the November Term, 1911, having finished the investigation of all matters brought to their attention, and in accordance with custom, respectfully report unto your Honorable Court as follows:

That we have been in session Nine Days, during which time we have received the reports of Four Constables and John N. Weigle Chief of Police of the City of Westminster; examined sxty-nine witnesses in our investigation of twenty-eight cases; found twenty-five presentments and True Bills, and dismissed three cases.

They further report that they investigated the Election Laws, and, in our opinion, we have found no wilful violations, but on account of its being new it is not as fully understood by some of the candidates; especially those who are to be elected as committeemen, and a few of the candidates for office who have since made every effort to fulfill the requirements of the law; and we advise that all parties in the future coming under this law should be most careful

We beg to call the attention of the County Commissioners for Carroll county to the lack of officers through the county, to-wit: Constables, and recommend that the County Commissioners co-operate with the taxpayers of each district, and secure the services of a good man, and make the renumeration such as to justify him to render good service.

They further report that, as required by law they visited the Jail of the county, and found therein fifteen prisoners, all male; examined the condition of the building, and found it cleanly and much better than reasonably could be expected, considering its age and modern construction. After returning to our room, the following resolution was passed:

Resolved, "That the County Jail is out of date, unsanitary, and not a fit place to keep prisoners, nor decent place for a Sheriff and his family to reside; and therefore, we, as a body, recommend a new, modern building; and further recommend that the sheriff's residence be separate and private from the jail; and we recommend, most emphatically, that the County Commissioners or Carroll county give this matter their serious consideration." The visit being at about midday, they were served with an excellent dinner by the sheriff and his family, which was much appreciated.

On the following day, we visited the Alms House, as has been the custom, and inspected the property, and found all in splendid condition; interviewed the inmates as to their treatment, and heard no unkind words, but, on the contrary, nothing but praise for those in charge. We found two children at the Alms House, and we recommend that some disposition be made of them, that they may become useful citizens. We also found improvements made and nearly completed, namely: An addition to the men's quarters, consisting of two rooms, one of which was for hospital purposes, and the other for a sitting room, both of which have long been needed. There has also been laid a concrete pavement around th main building, which is an improvement.

We feel that the county is to be congratulated on the absence of any great amount of serious crimes, that have not been investigated by this body.

The Grand Jurors now respectfully ask that they be dismissed, subject to the further call of your Honorable Court.

Respectfully submitted,
FERDINAND A. DIEFFENBACH,
Foreman.

Punctuality will relieve the company from embarassment under which it now labors, in the speedy completion of the road.

The recent decision of the Superior Court of Baltimore City, must remove all doubt as to the power of the company to legally collect all the stock subscribed.

LOCAL NEWS.

Home Market.

Now that we have a permanent market for the products of the country, here at home, we intend keeping our readers apprized of the range of prices, as corrected weekly by Messrs. Cover & Meixell, who are now buying largely every day.

Lawlessness in the County.

Scarcely a day passes that we do not hear of some thieving depredations being committed in some part of our county, and in the Fourth district, particularly, are petty thefts practiced with impunity. We have heard of several instances where men have gone armed and broken open smoke houses, dairies, &c., and have been seen and recognized by the female portion of th families. This is a sad state of things, and a terrible responsibility rests somewhere; and although such characters may have been persuaded by wily politicians, for their own aggrandizement, that "the Constitution has been violated and broken, and that there is neither law nor order," yet we warn them to desist before they are confronted with Judge Nelson, who will certainly find sufficient law to justly punish such unmittigated offences. To specify the many depredations we have heard of would require more room than we have to spare, but a strict surveilance will be instituted, and those light-fingered gentry had better be warned in time.

Didn't Find Ghost.

For some time past a report has been in circulation of a haunted house, somewhere in the Furnace Hill, a few miles from town, where all kinds of ghosts, hobgoblins, and strange and mysterious noises were seen and heard. On Sunday night we understand a considerble company of young men, armed and equipped with sundry flasks (supposed to be filled with tangle foot,) started for the ostensible object of forming a better acquaintance with the mysterious object, and possibly enjoying a gay old time in his society. They however returned about 11 o'clock, unsuccessful, and none of them want to hear anything more of Ghosts.

A Day of Thanksgiving.

We publish in another column the Proclamation of Governor Hicks, setting apart Thursday next, as a day of Thanksgiving, in order that the people of our much favored State may unite in aspirations and songs of praise "to the giver of every good and perfect gift." We have much for which we should be thankful. It is true that the gloom of war has spread a dark shadow over the land; but this is the work of wicked men. Their pride, vanity and ambition have brought the evil upon us; but the land has been blessed with abundance, and unusual health has prevailed during the year which is now drawing to a close; and for these and other bounties received at the hands of Providence, we should not fail to raise our voices in praise and thankfulness, and to pray that peace, happiness and prosperity may be speedily restored to us

Above His Business.

No doubt many of our readers recollect a song of the olden time, as sung with great glee by the boys, commncing, thus:

"A bullfrog dressed up in soldier's clothes,"

of which we have been very vividly reminded, by a visit to our town Recruiting Officer, sporting the n de plume of Charles Webster, (no relation to our State'e Attorney, however,) who has been putting on unheard of airs, and exhibiting an ignorance which was truly pitable, and finally leaving, with several bills remaining unpaid. His plan of operations to obtain recruits, appears to have been to frighten men in by threats of immediate drafting, which fact becoming known to Col. Wampler, he administered to his would-be Solon so stern a rebuke, that he changed his quarters to the neighborhood of New Windsor, where he soon rendered himself obnoxious to the people by arresting citizens on the merest pretense, and administering to them, himself, the oath of allegiance, and holding others to heavy bail. We understand, however, that his mission was cut short on Sunday last, by premptory orders to report himself at headquarters, where, we trust he will be made to repent the folly and rashness of his conduct in our county, and assigned a position more adapted to his limited capacity. Our people have been visited heretofore, by gentlemen, upon similar business, and are fully able to detect, and justly condemn, such unwonted arrogance and assumption.

Serious Accident.

An accident of a rather serious character occurred at Mr. E. Wagoner's Foundry, on Sunday afternoon last. It appears a number of small boys were playing there and among other mischievous pranks, put in motion a small tread-lathe, by which a little son of Mr. Wm. E. Shriner had one of his feet badly crushed. He was carried home, and the mangled foot dressed, and we learn is doing well. The boys had been warned but a few moments previour and the accident is traceable alone to their wilfulness.

Centipedes in His Stomach.

York, Pa., November 18.—George W. Naylor, of 326 Howard avenue, has puzzled a number of physicians here over a peculiar malady from which he has been suffering. Recently Naylor has expelled from his intestines peculiar specimens which looked like centipedes. They are from two to three inches long and thick through the body. They are provided with eyes and mouth and countless legs.

Naylor has been suffering greatly with a choking as if he were going to suffocate. Otherwise he was apparently in good health. He thinks he took them into his body while in the country working and drinking water from springs. Several of the little insects have been sent to the University of Pennsylvania for investigation.
