The Jackson Torpedo Factory Rebuilt.

A serious fire sometimes puts a man out of business and had Mr. George B. Jackson, owner and manager of the only torpedo factory in this city, been made oof different kind of material the fire which recently destroyed his torpedo factory would have put him down and out. But Mr. Jaekson is made of the stuff that overcomes all obstacles and hardly had the fire men succeeded in putting out the last spark of fire at his original torpedo factory than he was calculating on the plans for a larger and better factory. With Mr. Jackson it was a very short step from thought to action and today he is about ready to take possession of his new and up-to-date "cracker factory." It has been erected immediately in the rear of the old factory and is 45 feet long, 18 feet wide and 10 feet to the square. It is of frame, lined inside with asbestos and covered with a metal roof and sheet iron siding. It will be heated by an up-to-date hot water plant and the 40 employes, whom Mr. Jackson expects to put to work in about ten days, will have comfortable and safe headquarters to work in. The business which Mr. Jackson started a year or so ago has, by his energy, pluck and good management, increased very rapidly. His finished products, the torpedoes used so extensively by the railroads of the country, are shipped to points all over the country.

A Letter from Baltimore.

Baltimore, January 22, 1911.

We were in cold storage for 10 days but we are now gradually thawing out. During the late cold snap thousands of hungry and homeless men and women were fed and sheltered by charitable citizens and institutions of the city, many opening their doors to the poor and sheltering them at night by their furnaces. All churches have furnaces in their basements and the glow of the fire could be seen from the outside but there is no record of any extending an open door to the poor and homeless on cold nights. It resulted in full saloons and empty churches on Sundays.

We learn that Governor Crother's police probe cost over $12,000 and that the whole thing has resulted in a new commandment, namely: "Six days shalt thou labor and watch the side entrances and back doors of saloons, but on the seventh day thou shalt be blind."

I notice many farmers are coming to town to buy potatoes, cabbage, &c., for their home consumption. They say they had a crop failure. They are the only farmers who can sympathize with us in paying the present high prices for livng. It has opened their eyes.

Everyone is looking forward to the big Democratic convention which will be held here in June. One contemporary of the West said that possibly Baltimore was chosen because they could get a cheaper funeral here than anywhere else on earth.

Well, they may need it if Teddy gets in the harness. At any rate, Baltimore is ready to welcome them. Our markets are full of good things to eat. our hotels are full of good chefs, both parties are full of good politicians who are full of good promises and resolutions, and our ballot box stuffers are enjoying their freedom just the same as always. There is nothing wrong with Baltimore.

MR. PAUL ROYER LOST 200 SHEEP.

Mr. Paul Royer, son of Mr and Mrs. John Royer, of Spring Mills, this county, who is engaged in the cattle business in Prower county, Colorado, lost 200 sheep during the recent blizzard that prevailed in that county a few days ago. Mr. Royer had 1400 sheep and 800 lambs for which he had no shelter, the practice in that county being to allow the sheep to roam at large depending upon their fleeces of wool to protect them from the cold which usually prevails in that part of the country. The late blizzard was an unheard of thing in that county, 14 inches of snow falling and the thermometer dropping to 18 degrees below zero. The fleeces of the sheep became so full of cold, frozen snow that it was impossible for the body heat to overcome its freezing effects. Mr. Royer, in a letter to his parents, states that in some places horned catle were frozen in heaps.

While the meeting was not called to discuss the well known Men and Religion Forward Movement it was however, introduced by several of the speakers and became a matter of general discussion. The movement was indorsed and those present resolved to carry on the work, for the present, at least, among the members of the congregation of St. Paul's Church.

The ladies in charge of the meeting were: Mrs. Ferd. Dieffenbach chairman, and Mesdames Wesley Steele, John D. Bowers Charles Miller and H. D. The Westminster Orchestra consisting of Prof. Bonnote, and Messers. Geo. F. Morelock, A. Bailey Morelock, Wm. D. Reese, J. Thomas Anders, Samuel J. Stone. Theodore Mitten and Guy Williams enlivened the occasion with some excellent music.

The laymen's meeting has become a fixed function of St. Paul's Raformed Church and is resulting in much good to its members. A number of those present were members of other denominations but they, too, enjoyed the meeting and readily entered into the spirit of the same.

The question of "why men don't go to church" was touched upon incidentily, buta s that is a very large question it was not gone into very deeply. Suffice it to say, that the meeting Monday evening was a decided success and should be imitated by other congregations.

DEEP RUN.

Death of Mrs. W. J. C. Bish.

The cold weather of the past week has broken and we are having warmer weather. Some of the oldest residents of our section say the weather was the coldest in their recollection. Some of the roads were drifted which impeded traveling very much. The mail carriers had to take to the fields so that they could make their deliveries, but our faithful old carrier No. 16 made his trip every day.

Mr. and Mrs. John Flickinger are in Union Mills nursing Mrs. Flickinger's aunt, Mrs. John Leister, who is suffering from the infirmities of old age. At this writing she is somewhat improved.

Some of our people are still cutting ice, which from all appearances, seems to be of fine quality and about 10 inches thick.

At this writing we are informed of the sad news of the death of Mrs. W. J. C. Bish, of near Mt. Pleasant, who died Saturday evening, January 20th.

John Stonesifer is busy this cold weather making axe handles for which he has ready sale.

This cold weather caused the chickens to go on a strike, consequently the price of eggs is high.

Henry Troxell, of this place, was in Hanover last week butchering for Mr. Ira Bowman.

Our roads are in right good condition at present. The bad places are filled up with ice which makes a good road bed. Don't howl, just wait a while.

Eggs are bringing 30c.

Dr. J. W. Ehrhart and Noah Newman were in Westminsttr Tuesday attending to business.

Local Notices.

The Weather.

For the past week the weather has been most unpleasant in this locality, snow, rain, sleet and fogs predominating. We have heard of an old prophesy that "for every fog in January there would be a frost in May," which if it holds good this season will favor us with a May more frosty than pleasant. A change at present, however, would be not only acceptable but beneficial, as we hear of much suffering from colds and other diseases.

Our Railroad.

We are gratified to state that on Wednesday of last week this public thoroughfare was finished to New Windsor, and a regular train promptly placed thereon, connecting with the morning and evening trains at this place. By this arrangement our New Windsor friends can leave home in the morning, transact a day's business in Baltimore, and return home at night. We learn that by the freight accumulated along the road is greater than the company can conveniently find means to transport, while the amount of produce weekly shipped from Westminster far exceeds the most sanguine expectations of the friends of the road, five hundred barrels of flour and nine hundred bushels of wheat having been sent here on Tuesday last, on one train.

Popular and Interesting Lecture.

Rev. J. McKendree Riley, D. D., will deliver a Lecture at Odd Fellows' Hall, on Wednesday evening next, 29th, inst.; Subject "The Universal Yankee Nation," which drew together one of the largest audiences ever assembled at he Maryland Institute, Baltimore. Mr. Riley, as a lecturer stands unrivaled in the State, and we recommend all who desire to pass an agreeable and pleasant evening to attend. The proceeds of the lecture will be applied to procure a Library for the Methodist Episcopal Sabbath School, but apart from that consideration, we can assure all who attend that they will be amply repaid while those who remain away, will ever have cause for regret for so doing.

A Commendable Enterprise.

Our attention has been called to an enterprise about to be submitted to our citizens by Mr. D. F. S. Ways, the General Freight Agent of the Western Maryland Railroad, which we hope will be properly appreciated by our business community. It is the construction of a telegraph line from Baltimore to our place. To attempt here to discuss the advantages to be derived therefrom, we deem superfluous, as they are well known, but we would ask our business men and capitalists to give the matter their attention and support. Mr. Ways, who is a practical telegrapher, has prepared an estimate of its cost, which together with a book for stock subscriptions can be seen at the office of Messrs. Smith, Reifsnider & Dell. Lumber Merchants, near Depot. We are advertise that the cost will be comparatively trifling, and as the increasing business of our place demands a more thorough progressive spirit than has hitherto characterized our people, we hope the matter will be taken determinedly in hand and completed at an early day.
