TANEYTOWN WANTS TRAIN.

Change of Half Hour in Schedule Would Give City Connection.

George H. Birnie and other residents of Taneytown, this county, have filed with the Public Service Commission a petition asking relief in the alleged inconvenient service of the Northern Central Railway.

For the last 20 years, it is stated, except for brief periods at long intervals, the town has had no connection in the forenoon either to or from Baltimore, and in the afternoon but one train to Baltimore and none from there.

At the present time, the petition continues, the train south from Taneytown reaches Keymar, five miles to the South and the point of connection with the Western Maryland, at 9.48 a. m., while the southbound train on that road from Baltimore leaves there at 8.39. The train from Keymar to Taneytown in the morning is said to leave 32 minutes before the arrival at Keymar of two trains from Baltimore, thus depriving Taneytown of service from Baltimore by little more than half an hour.

MELROSE.

One of our merchants had 116 dozen eggs for his huckster. They were brought in by his customers.

We have learned from a reliable source that Mr. Tebbs, the promoter of the trolley line, said in an interview that unless something happens to mar the plans they will start grading, &c., on the 10 of March. As that date is close at hand we will watch for the beginning of the enterprise.

Twenty years ago we wrote the following item for the local papers: "Recently a gentleman of the neighborhood was at Hanover. He says the people have worked themselves to a high state of excitement about the electric street car line. They are all in favor of it. Now if Hanover will soon get an electric street car line why can't the Bachman's Valley Branch of the W. M. R. R. be extended to Westminster?

We have been waiting patiently for 15 long years to see the railroad extended as it would make our town prosper. Shall we not have the railroad before the 20th century?

Mr. Daniel Bucher, our blacksmith, expects to leave our town in the Spring. We have not learned where he will locate. Mr. Chas. Sandruck will take the blacksmith shop.

The committee requests all boys contemplating entering these contests to forward their names and addresses to the secretary of the committee at once. Also all persons decate prizes will forward their names siring to enter contest for the Advoand addresses to the Advocate office, or to the secretary of the committee. As was stated in our last report, the first object of organizing the "Corn Club" is, to increase the production of corn, which is becoming very necessary throughout the United States, owing to the rapidly growing population of our country.

Unless this increase in production is speedily done the soil will not much longer produce enough to feed our own people, and the nation will become a buyer of farm produce from other nations, as the Treasury Department for the past five years shows a steady decrease of exports from the farms of the United States. The public spirited patriotic farmers are appealed to to stop this movement and have the land continue to show a favorable balance in the world's trade.

Persons interested in the commendable movement to better conditions and keep Carroll county in the foreground of civic pride, need not wait to have the committee call on them, but may send their contributions to any members of the committee whose names are as follows:
