## A Foreword About 1913
### And a Word of Advice to the Buyer

Most of you will remember that just before the 1912 season opened, we advised the public to wait and see what we had to offer before they bought.

We promised to save them considerable money. We told them how we could. And we did. Everyone knows that we made good on this. Tens of thousands followed our advice and profited by doing so. Our famous $900 Touring Car took the country by storm. It proved the equal of any $1200 car shown during the entire 1912 season. To date we have had to refuse thousands of orders for this model and more are still pouring in.

Our advice for 1913 is the same as it was for 1912. Wait for the Overland announcement.

We will make our 1913 announcement on August 17th. On this date the world at large will awaken to still more car for still less money.

A few week's wait cannot make much difference to you; yet it will make a big difference by saving you considerable money.

On August 17th you will get all the facts, specifications and particulars. Buy *The Saturday Evening Post* on that date. Watch the newspapers in your city.

On that date the new Overlands will be in every city in America—ready for your demonstration.

August 17th will be the red letter day of the 1913 automobile year.

Remember the date and . . . . . wait!

**NOTICE TO WOODLAND OWNERS**

The State Forester, F. W. Besley, is visiting each county in the State this fall for the purpose of making woodlot and timberland examinations and giving advice in handling such lands when requested to do so. Advice is likewise given in the matter of forest tree planting. This occasion will afford the land owner the opportunity of having his woodlands examined by an expert, without charge, and a plan of management proposed to fit as nearly as possible the needs of the individual case. The examination is made for the benefit of the land owner, the State receiving an indirect benefit in stimulating practical forestry by means of such object lessons to show what applied forestry really means, and what it will accomplish. It is the aim of forestry to take woodland conditions as they are on the farms, differing widely as they do, and by suggesting such methods as experience has proven adaptable to aid in securing their highest productiveness. Therefore no matter in what condition the woodland may be, whether mature and ready to cut, whether cut-over, crippled or burned or full of promising young growth, much can be done to secure a valuable second growth or to improve its present condition such things as cost little or nothing but which will greatly increase the final yield.

The State Board of Forestry is cooperating in this work through the State Forester and desires that its usefullness may be extended as far as his time will permit. Make application to F. W. Besley, State Forester, Baltimore, Md., or see him at the local address given below and on the date named. He will be at the Court house this city, Thursday, September 3rd.

**MEN SELECTED FOR ROAD CONSTRUCTION WORK**

**Details of Reorganization of Engineering Department Are Announced.**

Final details have been completed by the State Road Commission in the work of reorganizing the engineering department, and Saturday morning announcement was made of the men selected to head the various divisions and sub-divisions. Each division will be in charge of a division engineer, who, in turn will command the various resident engineers, the personnel being as follows:

First Division—E. F. Ruggles, division engineer: First district, comprising Baltimore city, Baltimore county and Harford county, C. S. Gale, resident engineer; Second district, Carroll, Frederick and Howard counties, C. A. Tenny, resident engineer; Third district, Montgomery, Anne Arundel and Prince George's counties, R. W. Owens, resident engineer; Fourth district, Allegany, Washington and Garret counties, L. T. Downey, resident engineer.

Second Division—B. P. Harrison, division engineer; First district, Worcester, Somerset and Wicomico counties, J. T. Banden, resident engineer; Second district, Dorchester, Caroline and Talbot counties, Harry Waldorf, resident engineer; Third district, Calvert, Charles and St. Mary's counties, C. R. Justi, resident engineer; Fourth district, Kent, Cecil and Queen Anne's counties, Edwin Friese, resident engineer.

The third division which will have charge of general survey work, will be under John N. Mackall as division engineer. It is estimated that the change will not only cut down the engineering force one-third, but will save a considerable amount in hotel bills. It is proposed to allow each resident engineer a motocycle so that he can cover his entire territory and get back to his headquarters in a day. This will also admit of more frequent inspection of the work. Under each resident engineer will be a force of engineer inspectors.

## WOOD'S Special Grass and Clover Mixtures

**Make the Largest Yields of Hay and Pasturage.**

They are combined in proper proportion to give the best results for the different soils for which they are recommended.

We use in these mixtures our **Trade Mark Brand Seeds,** which are best qualities obtainable, and tested both as to germination and purity.

Our customers report the most satisfactory results, both as to securing excellent stands and largest yields of both hay and pasturage.

**Wood's Descriptive Fall Catalog** gives full information; also tell about all other **Grass** and **Clover Seeds, Alfalfa, Vetches** and all **Farm and Garden Seeds** for fall planting.

Catalog mailed free. Write for it.

**MANCHESTER**

**Death of Chas. E. Fuhrman**

Miss Margaret Fuhrman, of York street, was called to the phone on Thursday to receive the sad news that her brother, Charles E. Fuhrman, of Cass, West Virginia, was dead and would be brought here on Saturday. She, as well as the rest of the relatives, were shocked as they had not heard of his being ill and only the week before a friend had visited the family and reported them all well. Mr. John Fuhrman, a brother of the deceased left him well on Wednesday and had scarcely reached his home in Hanover before the above dispatch was sent across the wires. On Thursday Mr. F. was at his work at a saw mill. He ate a hearty dinner, left his family and returned to his work. In the early afternoon he told a fellow workman that he had a pain on his breast, followed by a pain in the head. He fell forward and was dead from apoplexy. The friends, with the body arrived at the Fuhrman home on Saturday evening, when the undertaker opened the casket. He found the body in bad condition and they all realized that it could not be kept but a few hours and decided to bury him that evening. He was a member of the Daniel and Jacob Lodge No 23 I. O. O. F. The Noble Grand was informed the membership notified, and at 6.30 P. M., when they found they had 47 members in line. After a short house service the remains were taken to the cemetery and laid beside a son and daughter. Rev Lau and Dr. Land officiated at the grave. After which the members of the lodge performed their ritualistic ceremony by the aid of lanterns, while the pale moon in the Southeast was almost in its full glory, which brought to mind the historic fact that we had performed a primitive act which gave birth to the name of the order. The Manchester Unity, and organization in England buried their dead at night which brought forth the expression "They are odd fellows", it is now the title to the largest beneficial society in our country.

Rev. Lau announced that memorial services would be held on Sunday afternoon at 4 P. M. Forty or more members of the order in full regalia marched to the house of mourning and escorted the mourners and friends to Emanuel Lutheran Church where, the Rev. Lau improved the occasion from Rev. 22-20, followed by Dr. Land with impressive remarks. Mr. F. was a native of our town where he spent most of his life as a dealer in cattle and was widely known. He was a son of the late ex-sheriff Edward Fuhrman. He is survived by his widow, two sons and four daughters. He was aged 57 years, 11 months and 26 days. Messrs H. B. Burgoon, W. L. F. Bergman, J. E. Musselman, Wm. A. Burgoon, Henry Gentzler and Chas. E. Houck were pallbearers. Tipton and Son of Hampstead had charge of the funeral.

Mr. and Mrs. Charles Brilhart entertained Mr. and Mrs. F. A. Dieffenbach with the Mr. and Mrs. of their sons and their children to supper on Sunday evening. After enjoying the royal feast and the social pleasures of the family they all went aboard the Harbaugh dayton wagon and were taken to the old site of Irving College, East of town, which was founded and built by Prof Dieffenbach, father of F. A. Dieffenbach, who had a flourishing school along military lines. With the death of the Prof. the school gradually declined and the property depreciated in value until it got into the hands of private parties and the original large front building was torn down, leaving only a small house now occupied as a private residence. All this did not deter them in their plans. Upon the elevation where Mr. F. A. Dieffenbach located the sitting room of his home family, there Rev. A. C. Dieffenbach christenned Ferdinand Dieffenbach, IV surrounded by a large circle of friends who had joined them in the interesting ceremony. Ferdinand IV is the son of Mr. Amelie Dieffenbach.

A great deal of interest had centured in the game of base ball our boys were to have with the Pikesville team, a double header, on Saturday last. There was a good attendance and the visitors went into the game with a will and really played good ball, but the home team played them with a a determination to win and did so, having a score in the first game 15 to 0, and in the second game 10 to0. The next engagement booked is with Westminster, Sept. 7th.

Miss Cofiel, of Arcadia, and her guest, Miss Margaret Marsh, of Frederick, visited Miss C's uncle, Mr. A. E. B. Myers, on Friday, spending the night with the family. Miss M. was on the home stretch of her vacation.

The Misses Viola and Thelma Whitmer, of Penbrook, Pa., are visiting their grandfather, Mr. Oliver Lippy.

Prof. and Mrs. Nace nee Miss Ida Roeder, of McKeesport, Pa., were guests of Miss Emma Trump at the home of her parents, Dr. and Mrs. L. Trump.

Mrs. H. B. Burgoon is visiting friends in Baltimore this week.

Mr. Valentine Menchey served a crab feast at his Pike Park, north of town, Saturday evening, which attracted a large crowd. The best of order prevailed. Dancing and other games were indulged in until a late hour.

About 12-30 P. M. Saturday smoke came pouring out of a chimney and between the weather boarding in the rear of the barber shop on north Main street in the George Hare building. An alarm was given and the firemen responded with engine and truck. The ladders were soon in place and were in readiness to fight the fire but after a time it was found that the chimney is faulty between the buildings and the fire in the same caused the smoke to escape and come out of the boards.

**MORGAN**

The Ladies' Aid Society will be entertained by Mrs. Mary Gosnell the last Friday in September.

Mrs. Wm. Hobbs, of Anne Arundel county, and Mrs. States Gist are visiting Mrs. Aaron Gartrell.

Miss Ada Israel, of Baltimore, is visiting Mrs. Guy Spurrier.

Mrs. C. H. Milter is spending several weeks in Baltimore.

Mr. and Mrs. Charles Wolbert spent Sunday with Mr. and Mrs. George Dorsey.

Miss Pearl Mercier spent Saturday and Sunday with Miss Belle Runkles, of Mt. Airy.

## COMMERCIAL

**Weekly Review of Trade and Market Reports.**

Bradstreet's says:

"Expansion is the key word of the trade situation as the month draws to a close and buyers feel the seasonal spurt to the laying in of supplies for fall and winter.

"This is, of course, largely predicated upon the prospect of assured or expected large crop yields and finds chief expression in the West, North-West and Southwest, where crop certainly has, generally speaking, supplanted prediction.

"Coincidentally with the marketing of the early gathered crops collections show a tendency to improve, and the money market likewise gives evidence of increased activity and strength of quotations. Perhaps the only possible check to full present or near future activity is found in the gradually enlivened political campaign, but it is a matter of widespread remark that political discussion is apparently given less than expected weight.

"Trade demand has expanded noticeably in dry goods, lumber, coal, wood, shoes, leather, and last, but by no means least, in iron and steel, where higher prices have apparently not acted as a bar to further booking.

"Wheat, including flour, exports from the United States and Canada for the week aggregate 2,338,569 bushels, against 4,273,948 bushels last week and 3,422,476 bushels this week last year."
